

Cameron Blake DeBlasio has been a valuable asset for the Lafayette Central Catholic High School; he was a Student Ambassador for the CC Development Office during his sophomore and junior years. CC selected Cameron to speak on their promotional video and for radio announcements. In his senior year he was a CC contest winner for promotional development material creation. He has been the announcer for the men and women volley ball teams as well as the women's soccer and basketball teams. Cameron participated on the track, cross country and basketball teams himself. He demonstrated his school leadership as president of the freshman, sophomore and junior classes as well as student council president as a senior.

Additionally, Cameron successfully participated in the Mock Trial competition, the National History Day District competition, the academic super bowl and 4-H County and State Fairs. He was president of the Interact Daybreak Rotary Club. Cameron is also active in the community. These activities include many 4-H community projects, Relay for Life, St. Lawrence Jubilee Christmas volunteer, visitations at St. Anthony's Nursing Home, visitations at the University Place Senior Living center, and more. By the way, Cameron is also an outstanding student. His English teacher wrote in a recommendation letter: "As a teacher I benefit from Cameron's presence in my classroom because he is willing to explore multiple intellectual possibilities rather than waiting for someone to hand him the "right" answer."

He is also an accomplished pianist and we all know how much effort that takes. Cameron's career goal is to be a play-by-play commentator or a radio/TV sports host. Next year he will attend either Ball State or IU and major in broadcasting. I am sure that he will succeed – his letter of recommendation from St. Lawrence School will explain my reasoning: "Cameron cares about his community. For the past three years Cameron has been the voice of St. Lawrence Rambler athletics. He is the only elementary announcer in the area that announces through the whole game. He is a positive role model to the younger students."

To sum it up Cameron does and cares.
