## **Why Should Your Company Be Part of the Rotary Club of Muncie?**

The Rotary Club of Muncie was founded 100 years ago - in 1917, and today is an integral partner with more than 46,000 Rotary Clubs worldwide. It brings together leaders in business, corporate life, education, government, cultural institutions, charitable groups, religious institutions, and entrepreneurship on a weekly basis for lunch and an insightful speaker/presentation. The vocational diversity brings about many benefits and opportunities.

Rotary provides opportunities to further leadership development and learn about other corporate leadership models. In addition, Rotary provides significant avenues of service and experience through its committees, club, board, endowment, and district positions. There are countless opportunities for members to perfect their podium skills in front of audiences - a quality highly prized among executive ranks. Plus, excellent networking opportunities.
