

Guidelines for requesting a Grant from Warrick County Rotary

We will donate to non-profit organizations that serve our communities in Warrick County based on the yearly goals and needs of the Warrick County Rotary.

We will only consider requests that are submitted on the Warrick County Rotary Grant request form and then submitted to one of Warrick County Rotary members for submission.

Donation requests are reviewed twice a year. Review dates are the first business meeting in June and December of each year. Warrick County Rotary will consider Grant requests up to \$1,000.00 per group. The Warrick County Board reviewing the grant request may consider a higher fund amount for a group depending on the Boards recommendations to the membership of Warrick County Rotary.

Warrick County Rotary will identify what the source of all funding will be used for so Warrick County Rotary can work in the best interest of the Rotary and the Organizations that is requesting the Grant. Warrick County Rotary understands that it cannot approve all Grant request but will work to provide the best possible impact for the community.

The Board of Warrick County Rotary will be the reviewing Grant group. Their responsibilities will be to review all Grants requests and determine what request will be presented to the Warrick County Rotary membership for their approval. The Board will make their Grant recommendations at the first Business Meeting of June for July and December for January of each year.

Warrick Rotary may at any time during the years designate funds toward projects that are requested by Rotary International.
