#### Sinclair Community College - or on Zoom

#### "Update on the Dayton International Airport"

### This Happened Last Monday...

President Walt Hibner called the meeting to order at 12:12 and called on Bill Nance to give the Invocation, and lead in the 4-Way Test, Pledge to the Flag, and News of the Day. The Rotary Foundations 2022 Programs supports a Rotary lead effort to support the lives of Mothers and newborns in Nigeria. 5 Rotary districts there are working to reduce the mortality death rate by 25%. A 2 million dollar grant along with support from other sources will expand health care and education for pregnant women, mothers, and babies. And.... A 32 year-old man in the United Kingdom was jailed for 3 years when he was found hanging upside down from a window after trying to break into a terrace house. The police officer said that because he had been hanging literally upside down from the house that he was trying to break into, he was left with little choice but to admit his crime and take his punishment. ## **Joe Fig: Art About Art**

An admirer of art production and viewing, Fig (American, born 1968) is an author and artist who explores artists' studios and museum galleries as sources of inspiration and the subjects of his art. From the paint-splattered barn of Jackson Pollock to the minimalist studio of Barnett Newman, Fig explores the process of making art, the working lives of artists, and the spaces where they work, what has been called the "preprovenance" of art. He recreates or imagines the artists at work, comparing the studios with the pristine museum environments where works are shown. His work is enjoyable on many levels, both serious and playful, all made in painstaking realism on a diminutive scale.

## **American Myth & Memory: David Levinthal Photographs**

American Myth & Memory probes the recesses of America's collective memory and imagination. Through his use of toys, Levinthal looks at the quintessential American subjects and mass media's role in mythologizing familiar cultural touchstones. Levinthal spent his childhood engaging with classic American myths and legends through televised Westerns and plastic playthings and his art has never strayed far from these formative influences: he has dedicated his 40-year career photographing toys in meaningful and playful vignettes that challenge our perceptions of photographic authenticity. Through his color photographs, Levinthal's work is populated with cowboys and cavalry, Barbie dolls and baseball figurines. Although the photographs project an illusion of innocence, Levinthal's toys are stand-ins for society. They allow him a way to explore what it means to be strong, beautiful, masculine, feminine and, ultimately, American.
