Dr. Amry Vandenbosch Digs Into
The Dean Situation for Nash

Author, teacher, and lecturer finds
Far East and Europe in muddle and
U. S. in the middle. Things are not
clear in Korea, as the Northern
effort is chinked with Reds of
China. The doc figures it's high
time to speak with Red China over
the table, instead of beating about
the bush indirectly. He favors
vittles for India-- even tho they
are monkeying around to borrow feed
for the sacred cows.
Blue questions and foggy answers--
leaves us in one *#%& mess !!!

Curtis Wayne Doran

Amid the first roar of the Windy month, March 1, 1921, our Baby Rotarian made his first appearance in the Weakly County, Tennessee home of Curtis C. and Lorene Farmer Doran. Moved to Mayfield, in the diaper state, he grew up in the rough and tumble ways of boyhood. He did a heap of Scouting, peddled papers, pulled ice, and Pet-ted Milk. In Mayfield High, he majored in Football and basket ball. "Gassy" graduated from M. S. C. in 1943 with a B. S. in business administration and social science. His inter-mural team grabbed the soft ball honors for 4 years. Earleen Shemwell pulled him to the preacher February 13, 1943. The Dorans have a daughter and son, Waynette 6 and Stephen 3. The boy is like his pappy, a prospect for All America come 1970. Wayne was a big gun in the USMC Artillery during Wool Pull II in the Pacific. He has taught school and sold eatables for General Foods, now he manages the local unit of Airlene Gas. He belongs to the Royal Neighbors of America and hopes for a fixed place in the hereafter thru the ducking system of the Church of Christ. His hobbies are Hunting, Fishing, Golfing, and a bit of Bridge.

Harlan: "When I was a boy my highest ambition was to be a pirate."
Bennie: "You're in luck. Not everyone's dreams come true."

Jarman: "Why are you so late for Sunday School?"
Jimmy: "I was going fishing, but dad wouldn't let me."
Jarman: "You are very fortunate, to have a father like that.
Did he make it clear why you are not to fish on
Sunday?"

Jimmy: "Sure thing, there was not enough bait for both of us. "

Ordway Hall sent all of the curtains to the laundry last week.
Comes a note in gal script from Wells Hall:

"Gentlemen: We do not wish a course in anatomy! "
The repy: "Dear Girls: The course is optional".

Pop: "This fire extinguisher is guaranteed for fifty years,
but I won't live that long."

Boody: "Heck, I know it, but you can always take it with you."

Thot of Week

If you acquire enough good habits, the old ones will
vanish-- just as good grass crowds out the weeds.
