Colleen,

It was my pleasure. I really appreciate the interest your members showed, even, or maybe especially those who don't really believe it. If you work on something as important as peace, it's good to be reminded that there are a lot of people who think the whole thing is wrong-headed. And I appreciate you connecting the dots between Positive Peace and ACEs. There is very, very much of Positive Peace in the Rotary FYI approach to resolution of ACEs.

My slides are attached. The file is a little large, so if it doesn't come through I will turn it into a pdf – that's probably smaller.

One of your members asked for reference books. The best reference on the “8-pillars Positive Peace” of the Institute of Economics and Peace is the Rotary Positive Peace Academy that I mentioned in the presentation.

<https://rotarypositivepeace.org/login/>

And the best book I have read on Peace in general is “The Better Angels of our Nature” by Steven Pinker. I will be reading a lot more as we go through the Workshop we are preparing for this spring.

Subject: Positive Peace Presentation

Jim: Thanks so much for presenting Positive Peace. I am sure we barely scratched the surface. I have been asked for a copy of the slides. Would you mind sharing the slides with me?

Thanks again. Have a Blessed Thanksgiving!

Best Regards, Colleen
