

On the next page is a reproduction of this letter written to all high school boys in Lebanon in September 1922. This body of this letter is repeated below:

September 1, 1922

You may know of the back-to-school campaign being put on by the Rotary Club. If you have not decided to return to school and complete your high school education, we would like to urge upon you the necessity of returning at once. Our motto is "Service" and we know of no better work than to be friends to the High School and assist as many as possible in getting an education.

Please talk the matter over with us or write us a letter telling us your intentions.

**Your friends,
THE "BOYS COMMITTEE"**
