

From the Lebanon Democrat, March 27, 1956

"The 'perfect triumvirate' of the Lebanon Rotary Club, who have a combined perfect attendance record of 73 years, which is thought to be a record for one club.

They are, left to right, H.M. Byars, club President, John Martin, Dr. R. D. Wilkinson, and Sam S. Bone. Martin became a Rotarian in September, 1929; Wilkinson in early 1930 and Bone in 1926. Bone had a perfect attendance record until the summer of 1933, when he had to miss three consecutive meetings because of an operation.

Martin is superintendent of the Lebanon waterworks; Wilkinson is a dentist, and Bone is in real estate and farming."
