Sponsored by Rotary Club Duha Viçosa

I'm 37 years old, I'm married with Ana Laine and have 3 children. All of them are boys. Their names are Pedro Henrique, João Victor and Davi. I'm a Civil Engineer but I work with Pig Iron production. The name of the company where I work is Rede Gusa. It is a plant and I and my family are the owners. We export pig iron mainly to the USA.

I'm a rotarian since 1991. My club is São Lourenço Mineirão. I'm very happy for having been invited to be the leader of this team. I've been to the USA five times, but four of them on vacation. Now I'm looking forward to knowing more about your culture, your activities and, if possible, your plants of steel and pig iron.
