

## Pictures from District Governor Don Hinch's Visit

Is our glass half empty or half full? If any of you think it is half empty, I suggest you resign from Rotary and join another organization that is not doing all the wonderful things you are doing in your community, district and Rotary World. If you agree with me that the glass is half full then help your President and Board of Directors make your club a better one before the end of the year. We have a real need and special deal for you in Rotary.
