

The **Service Project Center**, Rotary's new digital platform for service activities, has launched. It gives members more opportunities to manage service projects and share stories, best practices, and interests.

With the introduction of this platform, Rotary Showcase has been retired. All Rotary and Rotaract service projects have been transferred to the Service Project Center.

The Service Project Center is faster than the old system and offers a consistent experience across devices and screen sizes. It collects more accurate project location data and provides project management access to all club officers. Users can manage projects from mobile devices and easily share project links in email and on social media platforms such as Facebook, WhatsApp, and LinkedIn.

The platform includes a world map of projects, the ability to search for projects by language, and additional resources to help implement projects.

The Service Project Center is a significant asset in Rotary's effort to engage participants more effectively and increase impact. Users can tell project stories more fully, demonstrating their effectiveness to potential members, partners, and donors. There are more opportunities to provide photos and details, making the project process more transparent and giving members more ways to feel pride in their results.

Visit the Service Project Center regularly to record and update project details. <https://spc.rotary.org/>
