

## Important Reminders for the **Go Greenville** District Conference 6910

### Is Your Club Going for Gold? Celebrate with Us at **Go Greenville**

The new year is upon us and we are just months away from this year's **Go Greenville** District Conference where we will announce our 2022 Club's of the Year. Now is a great time to review where your club stands with their points total from Governor Mike Berg's District Objectives. January is the time of the year to make the final push over the next few weeks to be recognized at the conference.

The **Go Greenville** District Conference will feature club recognitions for the efforts they made this year to impact the environment, increase Rotary's brand with public image, and highlight those who have worked diligently to achieve bronze, silver, and gold status.

In addition to the traditional awards ceremonies and guest speaker meetings, we have made sure that there will be plenty of space for Rotarians to socially distance during the conference. We want to ensure that we provide a space for all to feel comfortable during this year's events. Make sure that your club members are registered for the conference to help you celebrate all your club's recognition.
