

# Rotary District 6910 Priorities for 2021-2022

## Rotary international President 2021-2022

Shekhar Mehta

"This rotary year we are encouraged to serve to change lives. Literacy programs, school feeding programs; end polio now, foodbanks; water aid, shoe aid, supporting vaccination centers; provision of PPE, exchange programs for youngsters- the list goes on and on"

## Rotary District 6910 Governor 2021-2022

Mike Berg

This may be the first time in a year and a half that we have the opportunity to restart our social interaction. A rebirth if you will of what makes Rotary so special. Let's take advantage of this opportunity to truly follow the motto of **Service Above Self**.

Increasing our **Membership** is so important for the work we do. It should be a priority in each club. **Engagement** is essential for a healthy club. It's the number one recruitment tool and the best way to keep members engaged in your club.

Rotary International's new seventh area of focus is "**Protect the environment**". I hope each club takes advantage of this priority to focus on an environmental project in your community.

The **Rotary Foundation** is the key program to fund our Service Activities. It provides financial support for our local and international projects. The eradication of polio is very important.

**Youth activities** like Early Act, Interact and Rotaract are the gateway to our future.

The best public image tool is the simplest; **wear your Rotary Pin**.

*As District Governor, I'm here to serve you. My goal is to leave the Rotary District, clubs and Rotarians a little better than when I started.*
