

What S4TL Teaches

Daily activities include exciting lectures, discussions, rap sessions, group projects, and demonstrations of those principles which enable an individual to lead others.

Some of the topics covered include:

- Leadership Integrity
- Choices
- Effective Communication
- Empowering Others
- Habits of Success
- Personal Development
- Leadership Traits
- And more!

Here's what some of the delegates have said about S4TL.

"A life changing experience."

"I learned that leadership is much more than telling people what to do."

"I thought it was going to be typical leadership stuff. You go from a group of eight people not knowing each other to becoming lifelong friends. It was one of the greatest experiences of my life."

S4TL is held at Florida Southern College in Lakeland, FL for seven days in mid June. Delegates reside in campus dorms and the recreational facilities of the school are available.

A Rotarian from the sponsoring Club takes the delegate to the campus then parents are asked to attend the closing ceremony and bring their child home.

"It was very rewarding to speak about S4TL at my sponsoring Rotary Club, never will I forget this entire experience."

Seminar 4 Tomorrow's Leaders

Rotary

SEMINAR FOR TOMORROW'S LEADERS

SEMINAR FOR TOMORROW'S LEADERS is a powerful leadership training seminar sponsored by Rotary Clubs in central Florida. Approximately 160 Rotary sponsored delegates from more than 100 high schools participate in this program.

Incoming high school seniors attending the S4TL are challenged to utilize all their available skills, knowledge, talents, expertise, and intelligence toward achieving specific goals and objectives.

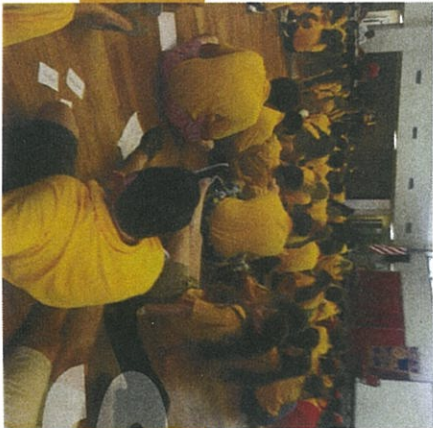

S4TL is composed of first year Rotary sponsored delegates, second year delegates called Red Shirts, third year delegates called White Shirts and fifth year students called Special Assistants to the Director. The first year delegates are placed in groups of about ten in which they will work together throughout the seminar. The Red Shirt delegates are the group leaders who function as "platoon leaders" for the group. It is in this capacity that they develop further leadership skills.

Rap Sessions

Three afternoons are spent in "Rap Sessions" where approximately 15 delegates and 3-5 visiting Rotarians participate in an open discussion of topics chosen by the delegates. The sessions are lively, opinionated and enlightening for all. They afford the delegates an opportunity to express and defend their opinions and ideas that might not be shared by all.

The ultimate objective/goal of S4TL is for each student to leave the Seminar with new awareness of himself/herself, and more finely tuned to utilize their given abilities to serve others in leadership capacities throughout life. Socialization and fun are definitely part of the program from talent shows to friendly competitive games.

"I was confident in working by myself, but now I have the confidence to work with others."

"I miss my S4TL family sooo much already! They are some of the best people I've ever met!"

"Unexplainably awesome in every shape and form."
