

ROTARY
PROJECT

GBI Rx

*a prescription to help the
Rand Memorial Hospital replace
damaged equipment*

In September 2019, **Hurricane Dorian** came to Grand Bahama and stayed! Days of rain created high waters never seen before by an island that has seen its share of hurricanes over the years.

The Rand Memorial Hospital in Freeport, the only hospital on GBI to serve 50,000 island residents, did not escape Dorian's fury. Today, the building repairs are almost completed, but there is still a great need for hospital equipment to replace what was damaged.

Five Rotary Clubs on Grand Bahama with 2 Rotaract Clubs have created Project GBI Rx to help replace the damaged hospital equipment. Your donations to GBI Rx up to a total of \$100,000 will be matched by a grant from the Rotary Club of Miami Foundation.

With the endorsement of District 6990 leadership, we are asking for the support of all Rotarians and Rotary Clubs in District 6990 together with other Rotary Districts and all others in Florida and the Bahamas to help with this emergency project now so that equipment can be purchased and delivered by the end of 2020.

Please send U.S. donations to:

Rotary Club of Miami Foundation (*please reference GBI Rx*)
P.O. Box 43-1466, Miami, FL 33243

For confirmation purposes, please include your name and email address. All donations will be acknowledged as received, and individuals donating \$100 or more will receive a 501(c)(3) tax deduction receipt letter.

Please send Bahamian dollar donations to:

Grand Bahama Rotary Disaster Relief Committee (*GBI Rx*)
c/o Commonwealth Bank, Freeport Branch 21105, Account # 5004317

**Please send pledge commitments to admin@miamirotary.org by 11/30/2020.
Contributions must be received by 12/20/2020**
