## Scott Stewart

*Placing Corporate Espionage in Context*

Scott Stewart supervises analysis of terrorism and security issues for Stratfor, the world's leading geopolitical intelligence platform. Before joining Stratfor, he was a special agent with the U.S. State Department for 10 years and was involved in hundreds of terrorism investigations.

Mr. Stewart was the lead State Department investigator assigned to the 1993 World Trade Center bombing and the follow-up New York City bomb plot. He also led a team of American agents assisting the Argentine investigation of the 1992 bombing of the Israeli Embassy in Buenos Aires and was involved in investigations following a series of attacks and attempted attacks by the Iraqi intelligence service during the first Gulf War.

Mr. Stewart was deputy regional security officer in Guatemala City and was responsible for embassy and diplomatic security at that post as well as in Belize City. As protective intelligence coordinator for Dell, he served as a member of Michael Dell's executive protective team. He has also consulted on terrorism issues for the Texas Department of Public Safety.

He is regularly featured as a security expert in leading media outlets, including The New York Times, the Los Angeles Times, CNN International, NPR, Reuters, USA Today, The Associated Press, World Magazine, Fox News, Discovery Channel and Time magazine.

Mr. Stewart will speak to Rotary on the proliferation of corporate espionage.

## Albania Earthquake Relief

Albania, a country situated in Southeastern Europe, was struck by a 6.4 magnitude earthquake at 3:54 AM CET on November 26<sup>th</sup>, 2019. More than 1,000 aftershocks have been recorded since the earthquake. The City of Durrës and the village of Thumanë are the most affected.

- Two hotels and two apartment blocks collapsed in Durrës.
- Four buildings, including a five-storey apartment block, collapsed in Kodër-Thumanë.
- **51 people lost their lives (to date)**
- **Close to 1,000 people were injured (to date)**
- **Thousands have been left homeless**

Tents have been set up in large, open spaces such as soccer fields to provide shelter to those affected, and close to 2,000 people have been placed in various cities across neighboring Kosovo. However, two days after the earthquake, Durrës was hit by a storm and more rain is expected to come. It is now imperative to accommodate everyone in shelters that are more durable than the current tents. Rescue crews with specialized equipment,

sniffer dogs, and emergency supplies have made their way to Albania to assist with search and rescue efforts as there are still people believed to be caught under the rubble.

**District 7280 Rotary Keystone E-Club** is comprised of members from the USA, Kosovo, Canada, Africa, and New Zealand. The news of the earthquake hit home for many people in our club. As a club, we rallied immediately to explore ways to help Albania and we have launched a fundraising campaign. We would like to extend a friendly invitation to our fellow Rotarians to join us in our efforts to support those affected, as Albania faces a long road to reconstruction.

**To support the fundraiser, please follow the link (and feel free to pass it around):**
