To: Huntingdon Rotary Club:

About the Huntingdon Community Center:

Our vision is to enrich the quality of life for our children, families, and communities. Our mission is to provide structured educational, recreational, and social programming in a safe and inclusive environment. We value community, support, innovation, commitment, mentoring, enjoyment, and character. Our goal is to give children a place to be themselves, as bright, happy and motivated as possible.

The Huntingdon Community Center is located in a very rural central Pennsylvania approximately 30 miles South of State College Pa and 30 miles East of Altoona Pennsylvania. Huntingdon County's 2018 population (estimated) showed approximately 45,168 populous with the most significant concentration of population in the County seat of Huntingdon (pop ~8,000).

The Huntingdon Community Center, located in the Borough of Huntingdon, is operated for the purpose and object of establishing and maintaining a Center for the social enjoyment and recreation to primarily benefit the youth of the Borough of Huntingdon, Pennsylvania, and surrounding communities. No person is omitted from being able to participate in any activities of the Centers due to their inability to pay for activities to which there is a charge, such person shall be on 'scholarship' and services will be free.

For over 60 years, the non-profit Huntingdon Community Center, (HCC, 501 c.3.), has been a fixture in the Borough of Huntingdon and Huntingdon County. HCC has provided activities and athletic programming to a population of children ranging in age from preschool to young adult. The HCC provides a supervised safe haven for young people, away from the influences of drugs, alcohol and tobacco. In 2019, HCC provided services to over 2,500 children through various wholesome programs such as track and field, soccer, tee ball, basketball, and gymnastics. Additionally many children have used the Center's supervised game room facilities, effectively providing them with alternatives to roaming the streets. The HCC promotes these activities at three locations, 5th and Mifflin; William Smith; and Detwiler Field. Additionally, the Center offers weekend programming and after school programs designed to provide children activities in a supervised environments. The HCC sustains itself on an annual operating budget of approximately \$200,000. Most of these funds are obtained through community generosity, fund-raisers and registration fees. Staffing includes one full time paid director and other seasonal and part time personnel as needed. A non-paid board of directors oversees HCC operations and hundreds of volunteers serve as coaches and tutors.

| Art Camp | 1-12 | 25 |
| Camp HCC | 6-12 | 200 |
| Karate | 5 YOA and up | 25 |
| Play Day | Pre-school | 15 |

Our Need:

Among our many needs, the Heating, Ventilation and Air Conditioning system (HVAC) at our 5th Street facility has reached the end of its' operational life. It is currently non-functional and estimates of repairs are cost prohibitive given the age and repair history of the unit. As such, the HCC has sought bids to replace the existing unit with ductless heat pumps. The Huntingdon Rotary has been a significant supporter of the HCC for decades. Once again the HCC is reaching out to Rotary to determine if the local club and/or the Rotary Foundation can help defray the \$6,850 costs associated with our needs. (Bid Attached)

Detwiler Memorial Field

In summary, The Huntingdon Community Center is comprised of a dedicated group of volunteers who "manage the business" as well as the score of volunteers who work directly with the many young people involved in our diversity of activities. Sponsors, such as *Rotary* provide substantial support to help us fulfill our mission. We, the Board of Directors wish to take this opportunity to say Thank You in advance to the Huntingdon Rotary Club

Very Respectfully Yours,

Dwight R. Beall,

Huntingdon Community Center Board of Directors

Dwight,

I am pleased to provide a proposal to install ductless heat pump systems in the community center. This proposal includes:

Option 1

- Daikin single zone condensing unit mounted on the wall on the Washington St side
- Daikin 18,000 wall mounted unit in the 1st floor room
- Line set in white slim duct
- Labor

The total to install this unit is \$3,450.00

Option 2

- Daikin multi zone condensing unit mounted on the wall on the Washington St side
- Daikin 18,000 wall mounted unit in the 1st floor room
- Daikin 9,000 btu wall mounted unit in the 2nd floor office
- Run new line set with white slimduct
- 2nd floor line set will go down exterior side of the building back in above the ceiling tile to the other side to connect to the condensing unit
- 2nd floor unit will drain to the drain on the exterior drain on the Mifflin St side
- Labor

The total for this unit is \$6,850.00

Subpanel electrical work shall be done by electrical contractor.

50% due when ordering equipment and 50% due upon completion. Burkey Mechanical Services offer financing.

Daikin provides a 12-year warranty. I provide a one-year workmanship warranty. Thank you for giving me the opportunity to install these systems. If you have any questions, feel free to call or email. I look forward to hearing from you.

Thank You,

Jimmy Burkey
