No project may start until final approval is received from District 7360 and The Rotary Foundation

PLEASE ANSWER THE FOLLOWING QUESTIONS IN NARRATIVE FORM:

1. Briefly describe the proposed project. What will be done, when and where will the project take place, and who will benefit from the project?

The Rotary Club of Chambersburg will purchase two benches, two planters, and one waste receptacle for a pedestrian alleyway in downtown Chambersburg. Each of the pieces will have a plaque with the Rotary logo. The project will benefit the residents of and visitors to Chambersburg's downtown.

2. How many club members will participate in the project and in what role? Is there a cooperating organization also involved and what will their role be?

All club members have contributed to the cost of the project through gifts and donations. We are working closely with the Borough of Chambersburg, who will install the equipment, place soil and plants in the planters, water the plants throughout the season, and empty the waste receptacle.

3. How will the project benefit the community? Approximately how many people will benefit from the project?

The pedestrian alleyway connects downtown public parking with Main Street, so we expect about 50 people a day will walk past the flowers. It is also an access from a bank and nursing home to Main Street, so we expect persons from those businesses to use the alleyway at lunchtime.

4. Will the project be completed if less than requested funds are granted? NO ___ YES X
 If yes will the project be modified if this occurs? NO _____ YES X in what way?

The Club has already purchased two benches and one planter with its own funds. We have enough money to purchase the waste receptacle, but not another planter. We will need the grant to complete the full project with two planters.

5. How does this project reflect the mission of The Rotary Foundation?

The alleyway is currently barren – just a concrete and brick passageway between two large buildings. The addition of benches and planters with seasonal plants will help beautify the downtown environment.
