

To date, SCCLT has housed a total of 74 families , comprising 121 adults and 111 children. These households have enjoyed the benefits of safe, stable housing and everything that follows , such as improved education and health outcomes and enhanced ability to weather life's ups and downs and to plan for the future.

- 4. Will the project be completed if less than requested funds are granted? NO _____ YES X
 If yes will the project be modified if this occurs? NO _____ YES X in what way?

The State College Community Land Trust has already purchased these units, and has the basic funds aligned to complete necessary code and safety upgrades. The decks are intended to help bring these homes into the future and make them appealing to own. There is currently no direct access from the living space to the backyard, and the front yard is located on a very busy stretch of University Dr. There are also plans for some additional energy efficient features plus a parking tum-around and some additional landscaping. These elements are necessary to the long-term habitability of these homes, but which low-income first-time homebuyers would not be able to add. Without this funding the deck will be omitted

- 5. How does this project reflect the mission of The Rotary Foundation?

Low-income housing is a serious problem in the Centre Region. This project qualifies as part of Economic and Community Development Focus. Additionally, by helping to raise the living conditions of lower income families it would also qualify under the Maternal and Child Health Focus.
