Program - April 28, 2015

Lynn Heinrichs introduced **Shawn Crisp**, head of the Public Affairs Section of the Fairfax County Fire Department. Shawn let us know the Fire Department rescue team is in Nepal for earthquake relief.

Shawn spoke of the areas to focus on fire prevention; space heaters, candles, cigarettes, and cooking are all big sources of residential house fires. She encouraged us to set reminders to turn off stove, etc. when leaving; to keep pets and small kids out of kitchen. Don't smoke in bed, don't throw butts in areas that could be flammable, keep fire extinguishers at home in places that can be accessed, never between a potential fire and an exit; avoid electrical fires by cleaning dryer lint screens after each load and dryer duct work once a year; check appliances, check cords.; unplug irons after use; take care how you dispose of ashes from fireplaces and wood stoves; avoid falling injuries by making throw rugs stay in place with double side tape or a rubber under mat.; have a night light on to be able to see during night awakenings.

Shawn also said it is better for home extinguishers to be replaced rather than recharged. She also encouraged the Fire Department program "File of Life" – a home mini-medical record with emergency contacts, etc. to be kept attached to fridge, or other visible place for first responders.

Finally, Shawn reminded us that the Fire Department will deliver smoke alarms to you and install them in your home. Call your local Fire Station.
