Rotary District 7630 Strategic Plan 2021-2024

Introduction

A strategic plan sets the future direction of an organization and identifies the resources that will need to be allocated to achieve that future reality. This Rotary District 7630 Strategic Plan establishes the goals, objectives, tactics, and measures necessary to achieve our mission in support of our clubs and Rotary International, and thus, grow our organization into the future.

District 7630 has not had a Strategic Plan since 2013. Therefore, this effort represents a new initiative rather than an update of our previous direction. This plan has been based on input we received from the District survey we conducted in March 2021 (the District 7630 Strategic Planning Survey Report is attached as Appendix 1). From that survey, we developed a Mission Statement for our District and developed three goals for inclusion in this plan.

Vision, Mission, Values

The **Vision** of Rotary International is: “Together we see a world where people unite and take action to create lasting change – across the globe, in our communities, and in ourselves.”

The **Mission** of District 7630 is to support and advance the Vision of Rotary International by providing leadership, guidance, and support to the Rotary Clubs of the District and to serve as a liaison between the Clubs and Rotary International and the public.

The **Values** of Rotary International are also the values of our District: Fellowship, Integrity, Diversity, Service, and Leadership.

Goals

The three **Goals** of this strategic plan are:

1. Support the District’s clubs.
2. Enhance the District’s communications and public image.
3. Strengthen the District’s leadership and administration.

The **Objectives** within these Goals are:

Goal 1: Support the District’s clubs.

Objective 1.1.: Establish an on-line resource center that will serve as a “one stop” location for Clubs to find all the information necessary to run a Rotary Club.

Objective 1.2.: Provide interactive communication between the District and clubs, and among clubs, to share best practices and provide mutual support.

Objective 1.3.: Provide club leaders and members with training on the key functions and programs of Rotary, using a variety of on-line, virtual, and in-person forums.

Objective 1.4.: Provide specialized administrative support to small clubs.

Goal 2: Enhance the District’s communications and public image.

Objective 2.1.: Establish a District-driven approach to promoting Club and District activities and accomplishments to the public.

Objective 2.2.: Provide guidance and training to the clubs on how to best utilize a variety of tools to communicate with their members and their community.

Objective 2.3.: Provide continuing communications to all District Rotarians regarding Club, District, and Rotary International initiatives and issues.

Goal 3: Strengthen the District’s leadership and administration.

Objective 3.1.: Evaluate the effectiveness of the District’s structure and administration, and implement improvements where necessary.

Objective 3.2.: Create a District Leadership Team that is well trained, visible, and accessible.

Objective 3.3.: Create a District Succession Plan for adding new members to Leadership and Committee positions.

Tactics and Measures

Within each of the above goals and objectives, we have developed tactics whereby the District can accomplish our goals, and measures whereby we can evaluate our success. These tactics and measures appear in the subsequent charts.

Monitoring

The progress and success of achieving the goals of this plan should be evaluated every six months by the District Governor Chain and the plan should be updated on a rolling, annual basis.

<u>Objective and Measures</u>	<u>Tactics</u>
<p>Objective 1.1. Establish an on-line resource center that will serve as a “one stop” location for Clubs to find all the information necessary to run a Rotary Club.</p> <p>Measures</p> <p>1.1.a. Within six months of adoption of this Strategic Plan, the Website subcommittee will have been established and will submit to the DG Chain a plan for development, implementation, and funding of the District Resource Center.</p> <p>1.1.b. Within 12 months of adoption of this Strategic Plan, the Website Subcommittee and Training Committee will announce the successful launch the Resource Center.</p> <p>1.1.c. Successful use of the resource center will be monitored through an evaluation of the increased use of the District’s website and any decrease in requests for information directed to the District.</p>	<p>1.1.1. The Public Image Committee will create a Website Subcommittee charged with the task of overseeing the development and implementation of an on-line resource center (see Appendix 1). This would be accomplished preferably through DACdb or another service run by a Rotarian.</p> <p>1.1.2. The Public Image Committee will coordinate with the Finance Committee and the DG Chain to assure the resource center is adequately funded.</p> <p>1.1.3. The Website Subcommittee will review the Resource Center at least annually to ensure all information is current and all links to other websites are functional.</p> <p>1.1.4. The Training Committee will develop and implement communication materials to inform the Clubs and members of the availability and utility of the resource center.</p>
<p style="text-align: center;"><u>Objective and Measures</u></p> <p>Objective 1.2. Provide interactive communication between the District and Clubs, and among Clubs, to share best practices and provide mutual support.</p> <p>Measure</p> <p>1.2. The AGs will report examples of information sharing and collaboration between Clubs during their quarterly meetings with the District Governor (see Tactic 3.2.4.).</p>	<p style="text-align: center;"><u>Tactics</u></p> <p>1.2.1. Along with Tactic 1.3.3 (quarterly AG-Club Presidents meetings), the Assistant Governors (AGs) will provide Presidents in their Area email or other updates on Club activities within the Area and identify opportunities for collaboration and sharing of resources between Clubs.</p> <p>1.2.2. The Training Committee, working with other relevant committees (e.g., Membership; Foundation; Public Image; etc.) will evaluate all the training modules used in the District for their relevance and effectiveness and make improvements where necessary. Additionally, new training areas should be identified for development where needed and outmoded or unnecessary training should be eliminated.</p> <p>1.3.2. The Website Subcommittee will develop a section within the online resource center (see Objective 1.1.) which identifies administrative support services that could be utilized by clubs unable to accomplish these tasks on their own (e.g., bookkeeping, recording minutes, Government filings, fundraising coordination and 501(c)3 support, etc.).</p> <p>1.4.2. The administrative support section of the resource center will be reviewed and updated at least annually and will highlight those services provided by other Rotarians.</p>

District 7630 Strategic Planning Survey Report – March 2021

Executive Summary

The Strategic Planning Committee of Rotary District 7630 conducted a survey of members between February 22 and March 4, 2021. The survey was sent to Club officials (Presidents, Presidents-elect, and Past Presidents) and District Officers/Committee members. The survey consisted of demographic questions (Club or District position and length of Rotary service), a question on the role of the District, a SWOT analysis (strengths, weaknesses, opportunities, and threats), and appreciative inquiry questions (what activities should the District continue, stop, or start?).

The survey was sent to approximately 150 Rotarians. We received 53 responses, for an approximate return rate of 35%. Analysis of the demographic questions showed that the majority (80%) of the President-elects who responded have been members for 15 years or less, while the majority (83%) of the District Officers/Committee members who responded have been members for 16 years or more. Therefore, the subsequent narrative response questions were evaluated in two nearly equal sized groups: 15 years or less of service (28 respondents) and 16 years or more of service (25 respondents). This was done to evaluate for any response differences between recent vs. longer-term members and Club vs. District perspective.

Regarding the role of the District, the vast majority (85%) of respondents indicated that the role of the District is to both support the Clubs and to serve as a liaison between the Clubs and RI and the public.

The narrative responses to the SWOT analysis and the appreciative inquiry questions provided a rich catalog of thoughts, concerns, and ideas that the Committee will find useful as we develop goals, objectives, and tactics for the strategic plan. All the detailed responses we received are available upon request to the Strategic Planning Committee. In the results section following this executive summary, we provide an overview of those responses after categorizing like responses together and applying numerical rankings to those like responses. Based on that evaluation, some broad statements can be made:

SWOT analysis: The greatest strength identified was the District leadership. However, respondents listed the District's bureaucracy as its greatest weakness and indicated one of the top opportunities was to undertake organizational improvements. Collaboration and networking among clubs and with other organizations was identified as the second most important strength but was also identified as the most important District opportunity. Communications/public image was identified as the second most important weakness but was also identified as an important opportunity. Member recruitment and retention was identified as the most important threat, and as a key weakness, but also an important opportunity. The second most important threat identified was the ongoing COVID-19 pandemic.

Appreciative inquiry: Respondents indicated that the two most important things the District should continue to do is to support the clubs and encourage their projects. When asked what District activities should be discontinued, approximately half of the respondents could not cite something the District should stop doing. However, for those responding, directives and mandates from the District was most frequently cited as actions that should stop. Strengthening the District's administration and leadership was cited most frequently as an effort that needs to start having greater focus.

Results

Ten questions were developed by the Committee and downloaded onto the online platform “JotForm.” Respondents were sent a JotForm website link by email and requested to respond. The responses to questions 1 through 3 were evaluated numerically by calculating simple percentages. The narrative responses to questions 4 through 10 were evaluated by categorizing like responses together within each question and counting and ranking those like responses.

Caveat: The categories used for like responses were suggested by the content of the responses and are subjective; a different analyst may have developed different categories. Therefore, anyone reading the summary below should also read the individual raw responses (available upon request to the Strategic Planning Committee) to see how they were categorized. Also, there are many suggestions, ideas, and perspectives in those raw responses that cannot be captured in the summary results below.

Appendix 2

Objective 2.1. of this Strategic Plan calls for the development of an on-line resource center that will serve as a “one stop” location for Clubs to find all the information necessary to run a Rotary Club. The following list was developed as an example of the information that could be included in such a resource center, using as a template a similar resource center currently found on the website of neighboring District 7620. Most of the items on this list exist as hyperlinks to information already extant and scattered within the websites of Rotary International, District 7630, and DACdb (such locations are noted parenthetically below).
