How contributions to the Rotary Foundation make a difference, and how a portion comes Back to our District and our Club:

<https://my.rotary.org/en/donate>

A portion of the funds we donate to the Rotary Foundation is returned to our District to provide District Grants to the District's Clubs. Specifically, up to 50% of the funds we contribute to the Rotary Foundation's Annual Fund come back to the District. Here's how it works:

- **District Grants**: These are smaller, flexible grants that support short-term projects in our communities.
- **Global Grants**: These larger grants support sustainable, high-impact projects that align with Rotary's seven areas of focus. Local clubs partner with other Rotary clubs around the world, leveraging resources and expertise.
- **Matching Grants**: The Rotary Foundation and the District match our contributions, generally by up to six times, increasing the impact of our projects.

Why It Is Important to give to the Rotary Foundation: Your contributions to Rotary help improve our community and the world.

- **Community Impact**: Donations directly support projects that improve lives, from supporting schools and medical facilities to providing clean water.

- **Global Reach:** Contributions fund global challenges like disease prevention, peace building, and disaster response.
- **Collaboration and Support:** Enables local clubs to partner with others, sharing resources and knowledge for greater impact.
- **Sustainability:** Ensures that Rotary's work is sustainable and will continue for generations to come.
- **Leadership Development:** Helps cultivate leadership skills in members, fostering a culture of service and excellence.
- **Transparency and Trust:** Rotary International has a 5-star rating for ensuring that contributions are used effectively and responsibly.

Giving to Rotary means investing in a better future, both locally and globally. Every dollar raised is a testament to the power of collective goodwill and the unwavering commitment to making the world a better place.
