

Humanity versus Technology

Organizations must leverage a human-centered approach to succeed in the digital future

CORPORATE EDUCATION

Customer and employee preferences are changing; leaders must define the new normal.

Source: BCG

Technology is reshaping the world of work; both are enabling and requiring agility.

Agile and transformational leadership requires new behaviors

Acting on new opportunities

.....

- Set bold aspirations
- Ecosystem wins
- Value creation

Leverage Technology

.....

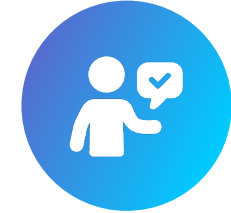

- Encourage mastery
- Define human element
- New use cases (e.g., data)

From managing to empowering

.....

- Hire for purpose/proactivity
- Set questions, not answers
- Empower, not direct

Ground action in purpose

.....

- Rehumanize leadership
- Translate purpose at a personal level
- Create purposeful culture

New leadership Mindset

**1. Tech-savvy
humanist**

**2. Strategic
executor**

**3. Globally
minded localist**

**4. Humble
hero**

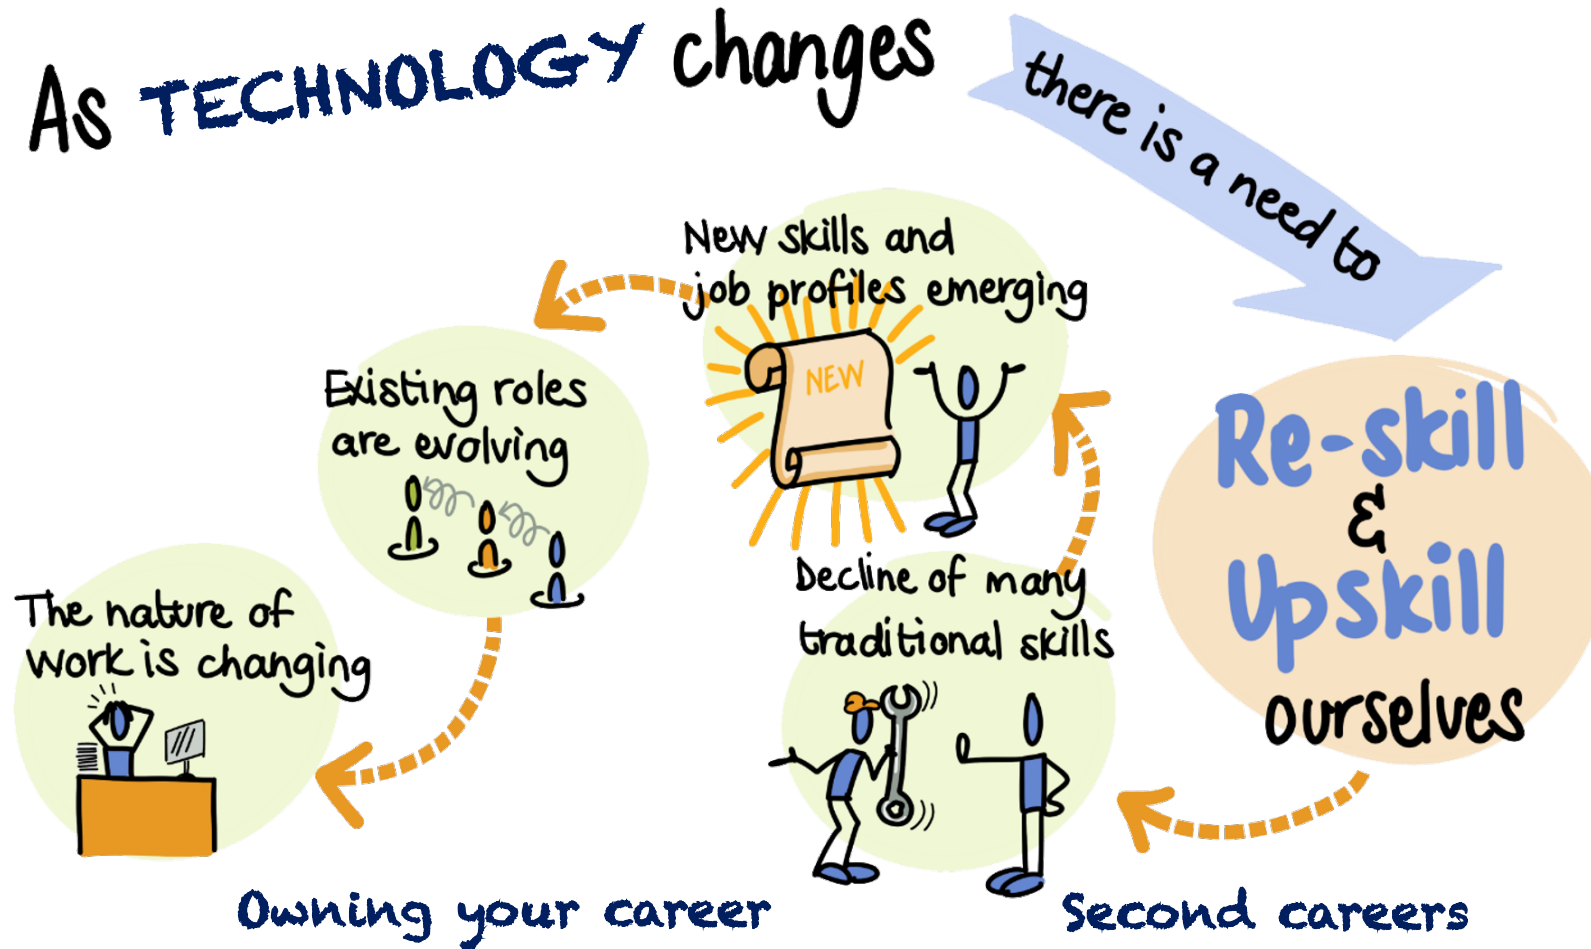

**5. High-integrity
politician**

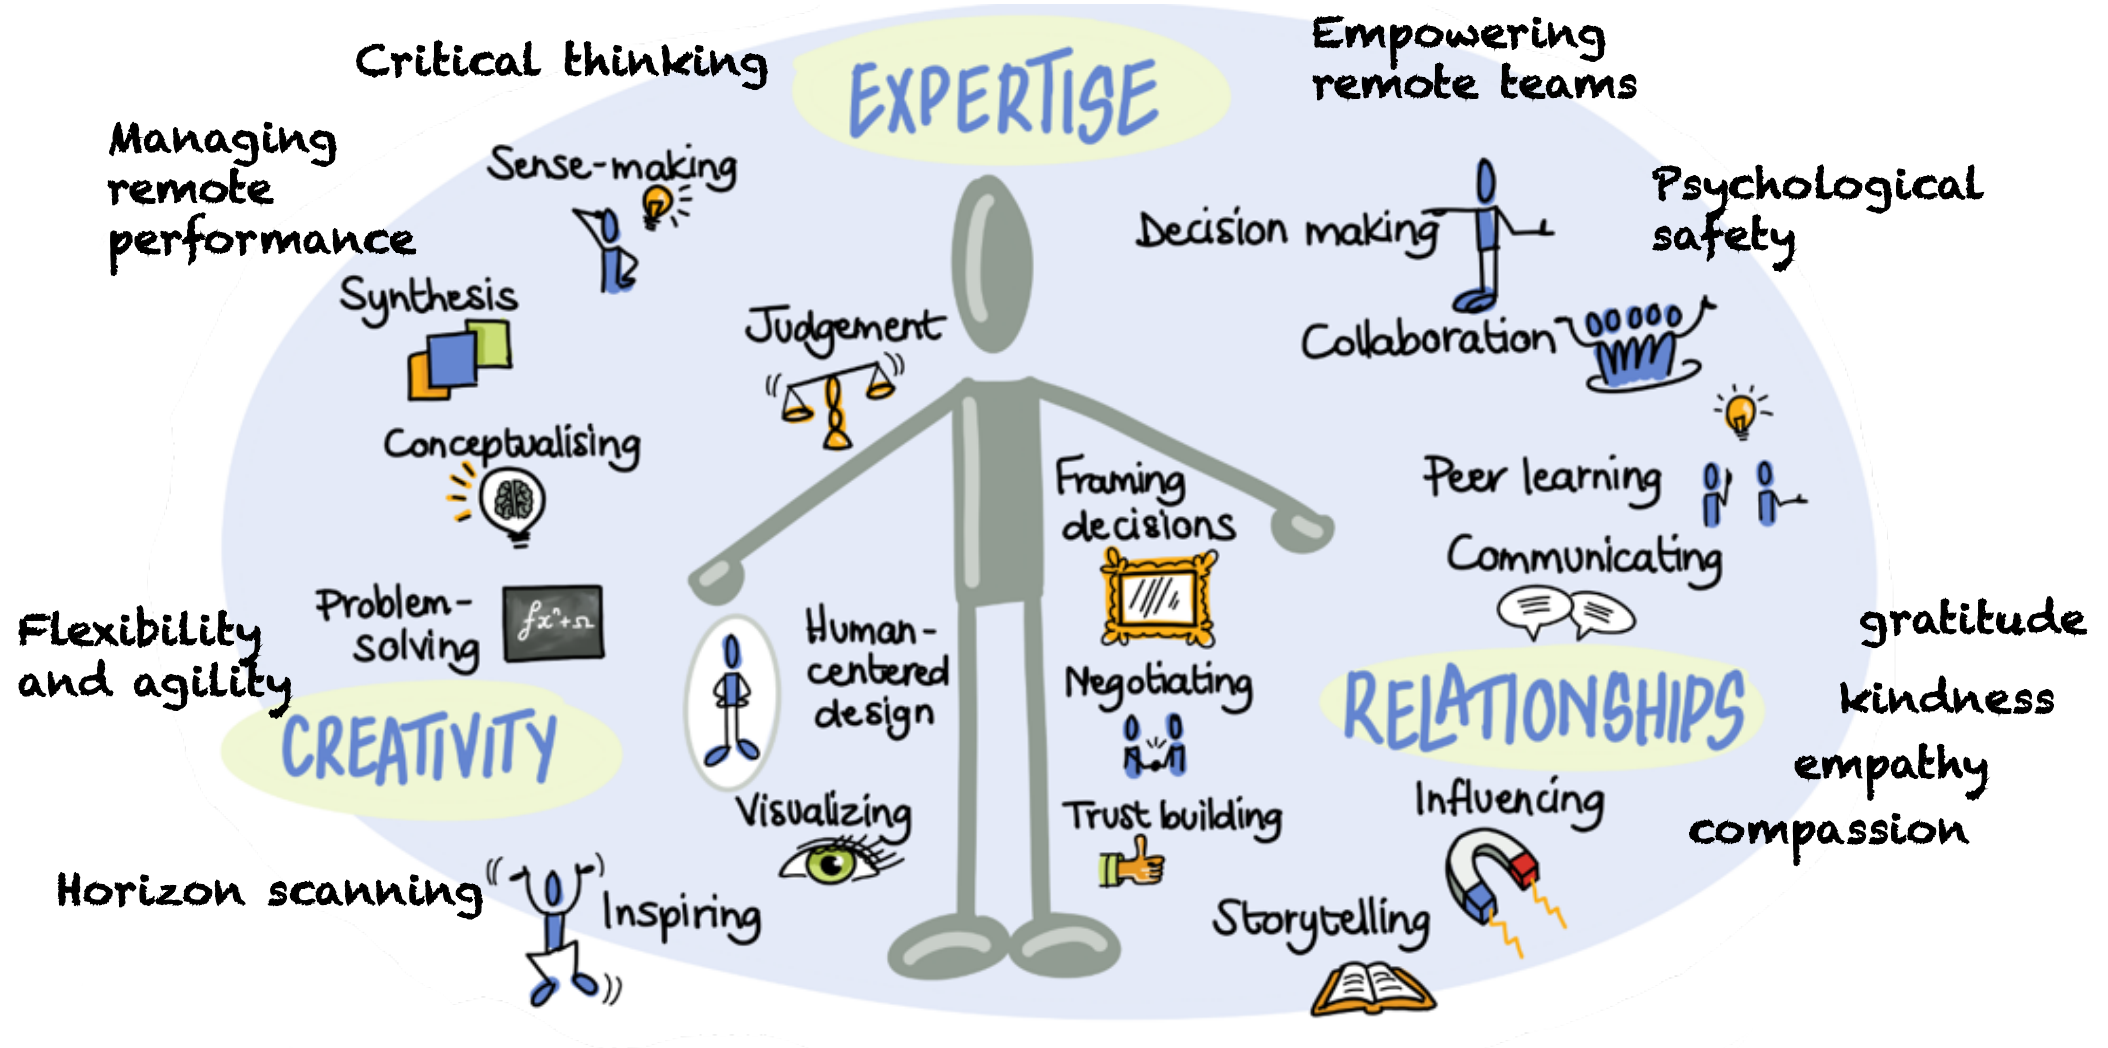

**6. Traditioned
innovator**

Technology is creating the skills needs of the future; reskilling is imperative.

Human-centered skills will be in high demand

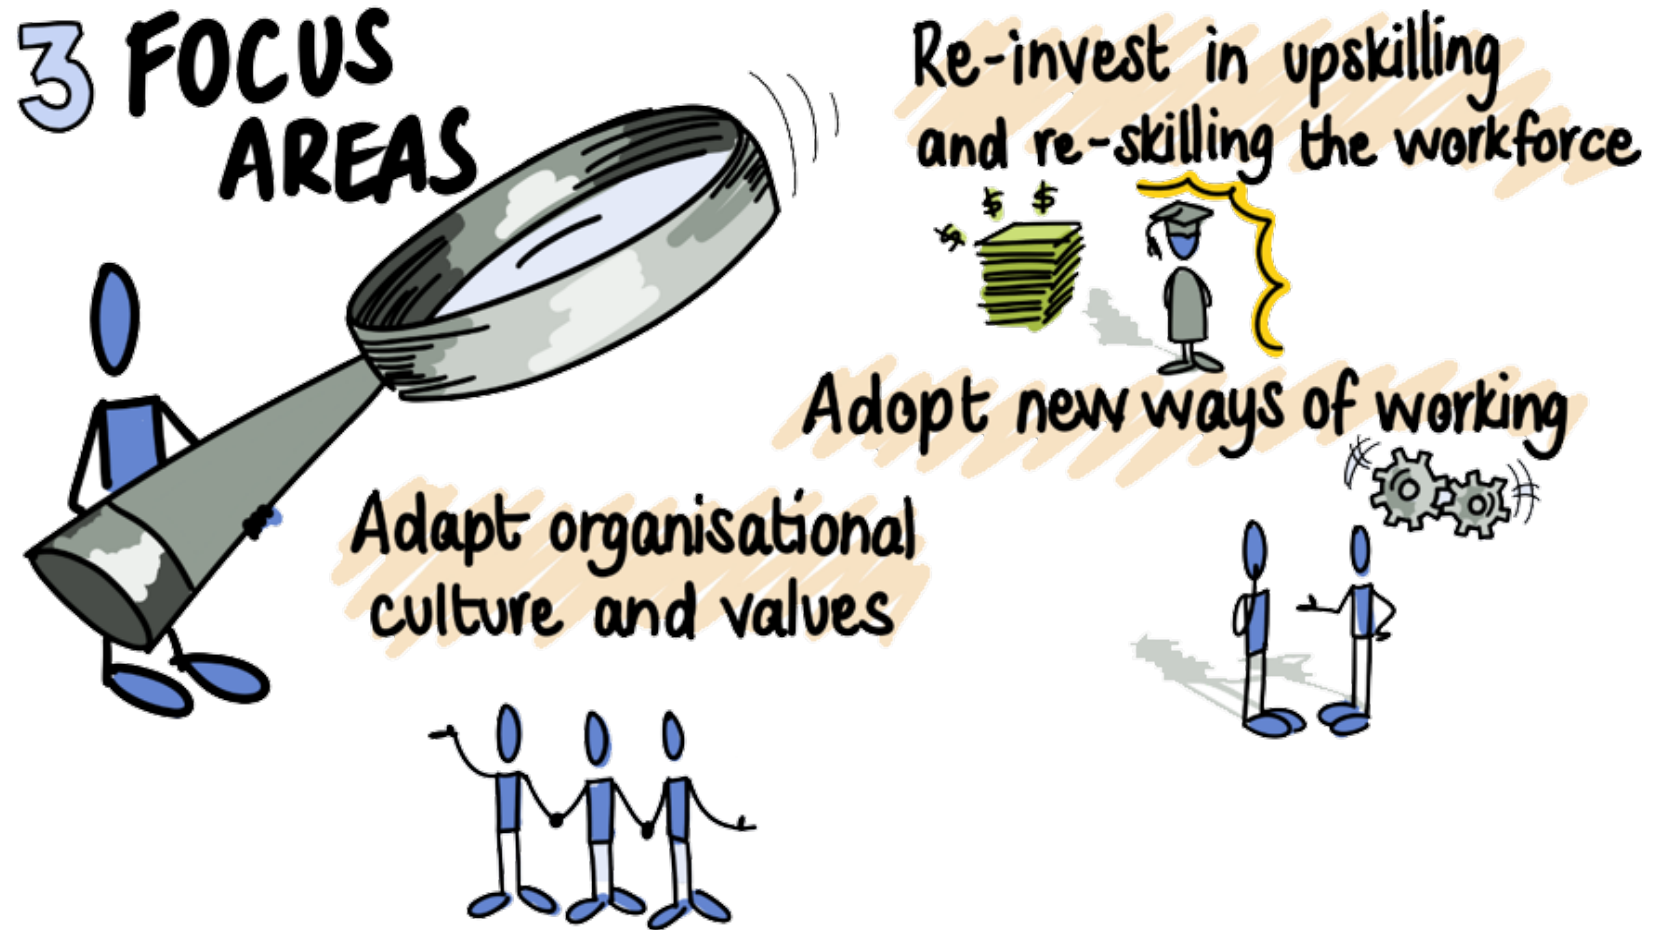

Skills That Impact Psychological Safety

¹Situational humility and sponsorship are only predictive of consultative-leadership behaviors, not supportive-leadership behaviors.

Nine organizational imperatives will separate future-ready companies from the pack

The future is now, and the future is HUMAN...

“ ”

The leader's role in an era of transformational change is not to give the right answers; it is to ask the right questions and **empower the organization** to find answers.
