

# JOIN US IN STRENGTHENING CHILDREN, CONNECTING FAMILIES, AND ENDING CHILD ABUSE

Ensuring a child's environment includes positive relationships and nurturing experiences early in life can have community-wide benefits for the future to include reduction in child abuse, lowered rates of incarceration, and decreased homelessness. Every program offered at One Place is designed to serve as a protective factor for children and families to help mitigate Adverse Childhood Experiences (ACEs) - from early education programs like Three School and NC Pre-K, to Child Care Resource and Referral, to early educator training and professional development.

## PREVENTION BENEFITS EVERYONE

Preventing ACEs and increasing resiliency has wide-ranging benefits

Increased economic productivity

Lower healthcare costs

More Effective Programs & Services

Longer Life Spans

Visit [www.oneplaceonslow.org](http://www.oneplaceonslow.org) for more information and to join us in building resilience for children.
