

Donald A. Adams Outstanding Rotarian Award 2021

Donald A. Adams was a past District Governor (1922-23) from the New Haven Rotary Club. He became the 15th President of Rotary International in 1925-26. The District created this award in his honor in 1975 to recognize one outstanding Rotarian from a club in our District, who is not a Past District Governor, who best represents all-around contributions to the Five Avenues of Rotary Service. Consideration is given to the candidate's exceptional service to both his or her club and the District. Each club in the District may nominate a candidate from their club by submitting this form to the selection committee no later than April 1, 2021. This most outstanding Rotarian for the year is selected by a committee consisting of the five most recent recipients able to serve. The most senior recipient acts as Chair of the selection committee. The award will be presented at the District Conference.
