Fighting Food Insecurity – Healthy Meals

Donate to provide a sustainable supply of healthy meals to the local food banks.

We have implemented a sustainable way to distribute nutritious meal food packages to local food banks that contain 6 meal servings that:

- are easy to prepare (just add water and your favorite supplements)
- are affordable ($\$2.50/\text{meal}/6 = 42 \text{ cents}/\text{meal serving}$)
- engage members of the communities in a sustainable way to support local food banks and other local food programs

Each food package provides six nutritionally complete meal servings. The content of the food packages are prepared in association with internationally recognized nutritionists and the Food Science Department at Iowa State University.
