

DACdb Plus

V 2.19

E-Mail: websites@dacdb.com

Install

To install place the folder “dacdbplus” in wp-content/plugins.

In your WP Admin click on Plugins, location DACdb Plus and click Activate.

Then click on Settings, enter your District # and Club # > Save Changes. *Each time you update the plugin be sure to go into settings and save.*

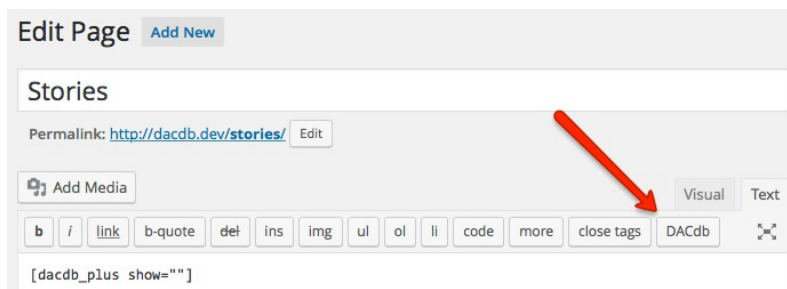

SSL

The plugin has been updated to address SSL (Secure Sockets Layer) for all the new browsers security encryption requirements and Google’s SEO ranking formulas.

Default Usage

Each show can be called with a short code

```
[dacdb_plus show="SHOW_NAME"]
```

The text editor has an easy to use button that will insert the default shortcode.

Stories - [dacdb_plus show="stories"]

Usage: Clubs and Districts

Stories has some “flags” that can change how the stories are displayed.

Quick Tags (show)

- d_events
- d_leaders
- club_presidents
- areas
- cog
- dcc

Widgets

- Usage

- storyid="x"
 - separator="yes/no"
 - display="yes/no"

storyid take the id number of a story in DACdb and will only display that story on the page you setup. Separator yes/no will remove or show the story separator. Display yes will show all the stories, no will show just the summary with a read more link.

- catid="x"

In DACdb stories can be grouped with a category passing catid="x" will only show stories in that category.

- pagetitle="yes/no"

This will remove the stories page title.

Story Settings

- Story Separator

8 different <hr> styling options in a drop down list.

- Story Image Position

By default the small images on stories alternate, you can over ride the and have them all left or right.

- Read More Link

Determines how the Read More expansion takes place; on page, open alone, open in new window.

- Social Media Share

Share page on Social Media or not

- All Stories URL

You can create a page that contains all of your ez-Stories in one place, then put the URL to that page here.

Speakers - [dacdb_plus show="speakers"]

Flags: none - Usage: Clubs and Districts

Displays speakers setup in DACdb.

Speakers Settings

- # Months to Pull

Default: 6

- Cats

Default: 1,2,3,4,5,6,7

This will filter the page and the widget

Newsletters - [dacdb_plus show="newsletters"]

Flags: none - Usage: Clubs and Districts

Displays bulletins (newsletters) from DACdb

Newsletters Settings for Pages and Widgets
