## Program

### **Dr. Shellie Keller, Director, Centers for Academic Success, CSN**

Dr. Shellie Keller is a higher education and mental health professional who is dedicated to creating opportunities for personal and professional growth for others in the community. She teaches communication and academic success courses at the College of Southern Nevada where she is also the director of academic success. Dr. Keller graduated with her business degree at CSN in 1999 and is a strong advocate for the community college mission. She earned a M.A. in Communication Studies, a Master's in Business Administration, and a doctorate in Higher Education Leadership. Recently she returned to UNLV to earn the M.S. in Clinical Mental Health Counseling and is now a practicing counselor in Nevada. Dr. Keller is a recent nominee for KLAS-TV's 2021 Remarkable Woman of Las Vegas and a recipient of the 2021 Beacon Award for Excellence in Student Achievement and Success awarded by the Northwest Commission on Colleges & Universities.

Dr. Keller, expressed her thanks for the warm welcome she received by the members of Green Valley Rotary Club. She was inspired by the student of the month and her accomplishments.

Dr. Keller moved to Las Vegas in 1994, after having been homeless for 2 years; she was an alcoholic and an addict at the time and made the decision to move here to live with her mom. Her sister thought that it may have been the wrong choice for her at the time but Dr. Keller's story proves that it is not how one starts that matters. A counselor at a rehab center in Utah encouraged her to attend a community college. When she got back from her treatment, she went to CSN and enrolled.

Dr. Keller went through college inspired by her fears because she had mentors who encouraged her. She highlights the importance of professors and instructors and their role as mentors. She is most grateful for Dr. Daniel McAllister (deceased) who broadened her horizon through volunteering. Dr. Keller has become an outstanding leader in our community through her many acts of service.

She is an advocate for mental health, and she finds ways to integrate her love for educating and helping others with mental health challenges.

There are many ways to be involved with a CSN. There are learning opportunities for everyone; by becoming an instructor, a tutor or by becoming a mentor.

The Promise Scholarship offers free community college to students who have the need. This program requires every student to have a mentor. Please consider becoming a mentor with CSN. Visit [csn.edu/promise/become-a-mentor](https://csn.edu/promise/become-a-mentor) for more information.

## Adjournment

Happy New Year! Here 🎉 to a fabulous 2022! Let 🎉 say, 🎉 Good-bye 🎉 to Covid and all its alphabetical variations and mutations!

Wasn't our float in the Rose Parade just gorgeous? Thank you to all those who volunteered and to PDG Randy Pote who rode the float. He and his committee were fantastic. There were some cold and rainy days and, as usual, we Rotarians stepped up! My daughter and I along with her Girl Scout troop, had a fun time helping out. My daughter, Maggie, was one of those fearless souls who ventured high onto the scaffolding to help decorate the Mutual of Omaha float. I'm sure you all noticed that the under-belly of the whale was well decorated! I stood on the ground with some of her Girl Scout sisters and helped put the flowers on the Rotary float's bookmark. Then, I was all set to be one of the walkers only to have my husband test positive for Covid. That was a big bummer, to say the least. The good news is that with the vaccinations, we came through Omicron just feeling like we

had a cold/flu bug. We watched the parade from our couch and, of course, remarked that the float was all about that bookmark!

#### Egypt

In 2019, intrigued by a pair of kestrels that were nesting across from her apartment balcony, Georgina Cole began documenting her sightings on the eBird online database. ♦ I realized I had to learn more about all the birds around me, ♦ says Cole, a member of the Rotary Club of Red Sea-El Gouna, which is located in a resort community on the Gulf of Suez in a region that is a stopover point for more than a million birds migrating between Europe and Africa. When a local school asked her to speak to its students, Cole created bird identification cards in English and Arabic. Encouraged by her work, which is supported by her club, the town constructed a viewing hut overlooking a wetland area. The project has expanded to educate local hoteliers about which birds can be spotted at various times of the year. ♦ The Red Sea region thrives on tourism through marine life, with scuba diving and snorkeling, ♦ Cole says. ♦ Why not also birds? ♦
