Morning Meeting Moments

Lynda Baassiri spun the wheel and **PP Mike Peterson** paid her fine! **Dave Jochman** was on time but made a video for **Judy Lloyd**.

Trivia with PP Mike Peterson announced that July 21 is **National Junk Food Day**. It is celebrated every year on July 21. Dedicated to the foods we like to snack on, this isn't your average cheat day. Today, you can eat junk food for every meal. Popularized in the U.S in the 1950s, junk foods are usually, by definition, high in fats, sugars, salt, and calories.

Larry Flashberg won immunity by guessing that Doritos were inspired by Disneyland.

Other junk food trivia included info about Twinkies, Kit Kats, M&Ms, Reese's Pieces, cotton candy, jelly beans, Nutella and bubble gum.

Happy Bucks and Darnit Dollars

Kay Doxilly had Happy Bucks for the upcoming Sister Act show and for being able to Zoom.

George Baggott shared that **Jon Hoolihan** is back from Alaska and he caught eight salmon. Good job, Jon!

Dave McGovern got himself in trouble with last week's story. This week he is sharing nothing!

Dave Jochman was vertical and still in the game. He was just back from Peoria where he was fishing, eating fried foods and drinking beer. His daughter is turning 39 and his granddaughter is 3 months old.

John Savage has a Happy Buck for his preschool daughter going through orientation and will start school next month.

Greg Bruce is doubting his junk food knowledge. If Kit Kats are made from old Kit Kats, how did they make the first Kit Kat?

Larry Flashberg paid a buck to ask how **Dave Jochman** was feeling. "Happy to be alive."

PP Jim Frey had three Happy Bucks. One for his grandkids coming to town, one that he and Carol are heading to the cabin this weekend and one for the leak in his ceiling being fixed.

Val Hatley had a Darnit Dollar because his nametag was missing.

Darcy Dougherty, recently returned from her 50th reunion in Illinois, was happy to share that there were 70+ attendees. There were special efforts made to make it fun and, of course, our Lucky Darcy walked away with two door prizes!

President Patrick reminded everyone to feed the Polio Pig!

President Patrick presented each table with a series of questions for discussion. We got to know each other better by pondering questions like:

What was your first car?

What makes you unique?

When have you felt most challenged?

There was \$453 in the pot. The winner was **Larry Flashberg**. He pulled an "8"..

Rotary 4 Way Test

of the things we think, say, or do:

Is it the **TRUTH**?

Is it **FAIR** to all concerned?

Will it build **GOODWILL** and **BETTER FRIENDSHIPS**?

Will it be **BENEFICIAL** to all concerned?

AMP JULY Meeting Notes:

Thank you to **Heidi Woodruff** for opening her home and to **President Patrick Jones** for sharing his vision for the upcoming year. Ideas were shared and fun is afoot! (Sydney, too!)

AMP AUGUST Meeting

August 11th - Meeting at Lazy Dog in Town Square. Social half hour at 5:30 with the meeting starting at 6:00. No speaker. Focus will be the Volunteer Calendar for 2023.

District 5300 News

It is with great sadness to report the passing of PDG Roger Schulte. He had been courageously battling ALS but, unfortunately, could go no further.

Please keep his wife, Paulette, and their families in your thoughts and prayers!

Rotary Projects Around the World 2022

Canada

Herring are food for salmon, halibut, lingcod, seabirds, and orcas and other marine mammals, and are a traditional staple of First Nations tribes' diet. But herring populations are in decline because of overfishing and the degradation of preferred egg-laying surfaces such as kelp fronds and eelgrass. In February, Rotarian "sea foresters" in British Columbia dropped herring curtains into Porpoise Bay, northwest of Vancouver. The curtains — heavy-duty landscape fabric cut to lengths of about 8 feet, floated with

foam and nylon rope or PVC pipe, and anchored with rocks — are ideal surfaces for the fish's eggs. Since 2020, nearly 30 volunteers have installed more than 100 curtains and returned weekly to monitor them through the spawning cycle. Six Rotary clubs are participating in the project, led by the Rotary Club of Sechelt.
