About John Gordon:

John Gordon has been an operational meteorologist for over 30 years. While in the Air Force as a flight meteorologist, John flew in several major hurricanes. Currently, John is the Chief Meteorologist of the National Weather Service (NWS) Forecast Office in Louisville which serves 49 counties in central Kentucky and 10 in southern Indiana.

Weather forecasting is a very humbling business, and the weather patterns of the Ohio Valley don't make it any easier. Things have certainly changed over the years when the NWS forecasted and observed weather at SDF. We give much more partner support for things like Thunder Over Louisville, KY Oaks and Derby, Pegasus Parade, as well as weather support for HAZMAT, fires and much more to our local, state, and federal agencies.

John will show Rotarians some of the cool things NWS Louisville does to serve the taxpayers and then give you a chance to answer some weather questions. It will be as easy as, well, as easy as forecasting the weather!

October 17th Meeting Recap:

LMPD Chief Steve Conrad began his presentation by commending his fellow officers for the work they do to keep our city safer. He shared some of the challenges the police department is facing due to budget cuts and a smaller force. Chief Conrad also discussed his changes to the "pursuit" policy as well answering Rotarian's questions about social media, gun buy back programs and gang violence.
