District Governor to Visit This Week

District Governor Don Harris will make his Official Visit to the Rotary Club of College Park tomorrow morning. He will be accompanied by Area Governor, Melissa Brzezinski. Make plans to attend and bring a guest as we hear the District Governor's plans for the new year.

Don is a member of the Rotary Club of Lake Mary. He has been a Rotarian for 32 years. He has served as President, and in many board positions, including Membership, Public Image, Vice President and Club Administration, Corporate Sponsor/Stewardship Committee, Sergeant at Arms and Board Advisor. He founded the Annual Strategic Planning Meeting. He was awarded the Service above Self award twice and Rotarian of the Year twice. Don utilized his marketing and business development vocational expertise to help his club with significant fundraising.

He has served in District 6980 as Chair of Vocational Service, Public Image, Rotary Means Business, Youth Services, Club Administration and Strategic Planning committees. He has also served as a District Finance Committee member, and Wheelchair Games Public Image Chair.

He has been married to his wife Janie for soon to be 40 years and has 4 children, 7 grandchildren and 2 grand "puppies". Don and Janie enjoy golfing, traveling to see family, children, and grandchildren, spending time at the beach, boating and fellowship with fellow Rotarians and friends.

Welcome back, Governor Don, to the Rotary Club of College Park.

District Vibrant Club Workshop

Rotary District 6980 will sponsor its first Vibrant Club Workshop on Saturday, August 12 from 7:30am to 12:00 Noon at the Lake Mary Campus of Seminole State College. All club members are invited to attend. There will be special breakout sessions for members, committee chairs, officers, and directors.

Rotary projects around the globe

August 2023

Italy

Members of the Rotary Club of Milano International-Net organized an amateur ski race in March to support a local charity's initiative to donate defibrillators to try to prevent cardiac arrest deaths. The ski event attracted about 20 Rotarians, family members, and friends to Aprica, a resort nestled along a pass between Lake Como and the Dolomites. "There were also many non-skiers who enjoyed a beautiful day of sunshine, friendship, and conviviality," says Chiara Giudici, the club's immediate past president. The entry fee and sponsorships brought in more than \$1,750 to purchase a defibrillator for a city park, says Giudici. In October, the club again supported the initiative, which raises money through sports events, by sponsoring a 50-participant tournament of *padel*, a racquet sport compared to pickleball. That competition provided a defibrillator to the police department.

Indonesia

The Rotary Club of Jakarta Metropolitan has offered free health checkups since 2015 for older people, mothers and their children, and others. For its eighth medical fair in February, the club expanded its screenings to include homeless people. X-rays detected signs of tuberculosis, bronchitis, or pneumonia in 97 of the 223 people screened. The club followed up to help them overcome barriers to treatment. "Our solution is to involve the civil registry service office to help with the homeless peoples' identification so that they can apply for government insurance and later go to a hospital," says club member Inne Ongkodjojo. "From this incident, we see the need to provide for public health screening, especially for TB, which has a fast and widespread transmission," says Arry Basuseno, the club's immediate past president.

Nigeria

Six members of the Lagos-based Rotaract Club of Gbagada spent three weeks and 810 hours on an extensive renovation of the washroom at the Apostolic Primary School in Ketu. Using about \$1,000 from individual donors, the Rotaractors replaced part of the roof and two worn doors, polished the floor, painted, undertook masonry repairs, and hired a plumber to connect the dilapidated six-toilet block to the existing borehole well. "The toilet was in a dirty and deplorable state," heightening absenteeism at the 500-pupil school because of illnesses such as diarrhea and cholera, says Michael Ekerin, immediate past president of the club. The project, completed in March, was among the club's 20 service projects during the 2022-23 Rotary year.
