Scotsman takes office as President of Rotary International

Gordon McNally, a member of the Rotary Club of South Queensferry, Lothian, Scotland, began his one-year term as president of Rotary International on July 1, 2023. McNally a graduate of dental surgery at the University of Dundee, owned and operated his own dental practice in Edinburgh. He was the chair of the East of Scotland branch of the British Paedodontic Society and has also served in other charitable organizations including as an ambassador for Bipolar UK and as a patron of the UK-based nonprofit Hope and Homes for Children.

A member of Rotary since 1984, McNally has been president and vice president of Rotary International in Great Britain and Ireland. McNally and his wife, Heather, are Major Donors and Benefactors of The Rotary Foundation. They are also members of the Bequest Society.

During his term, McNally will focus on steering the global membership service organization with an emphasis on mental health, recognizing its critical role in community well-being worldwide. McNally aims to create a culture that understands and supports mental health, while working to reduce stigma, increase awareness, and improve access to mental health services. With 1.4 million members in 200 countries and regions, Rotary will continue to actively address mental health as part of its ongoing efforts to tackle the world's most pressing challenges.

"Mental health has often been a less talked-about aspect of wellness. However, in a world grappling with various challenges, it is imperative that we bring mental health to the forefront. Rotary, with its widespread network, has the capacity to foster dialogue and support," said McNally. "By emphasizing mental health, we can make a considerable difference in communities around the world. This is about nurturing humanity for a better tomorrow."

As head of Rotary's global network of 46,000 clubs, McNally will also oversee Rotary's top goal of eradicating polio. Alongside its Global Polio Eradication Initiative partners, Rotary has achieved a 99.9% reduction in polio cases, and contributed more than US\$2.6 billion and countless volunteer hours to protect nearly 3 billion children from this paralyzing disease.
