### EndPolio drive continues

#### [DONATE NOW](#)

On National Immunization Days, Rotarians, and members of partner organizations, still travel the world to give children precious doses of polio vaccine. Countless cases of severe visual impairment have also been prevented due to the addition of Vitamin A. Additionally, volunteers distribute soap, clean water, hand-operated bikes, and malaria-preventing

nets.

Rotarians can also be proud that the infrastructure they helped build to fight polio is now being used to stop the spread of COVID-19. Rotary clubs around the world have mustered during this pandemic to distribute Personal Protective Equipment, ventilators, and other medical apparatuses.

We can all be grateful to Rotary for giving their word to the children of the world to eradicate polio. Today, millions of people are living, breathing and walking, who would never have had that chance without this incredible organization.
