Club of Olympia

Next Club Meeting Date: August 22, 2022

By Dan Lehuta

Our next meeting will feature Darin Goss (Chief Executive of Providence Southwest Service Area) and Will Callicot (President, Capital Medical Center) – The State of Emergency Care. Goss is inspired by fundamental shifts in how medical care is delivered, particularly for non-emergency medical conditions. One outcome of the pandemic has been a sustained increase in telehealth appointments. “Not everyone needs to be sitting in front of a provider,” he maintains. “We have other avenues available to offer immediate care or urgent care. I hope we will continue to embed those options for people who want to use them. We want to continue to serve our patients in a space that is most convenient for them.”

NOTICE - We are now meeting regularly at the River's Edge restaurant at the Tumwater Valley Golf Course. [Map It!](#) Click [HERE](#) to download the current River's Edge lunch menu.

Program: Dr. Auzimuth Jackson – Affective Frameworks, Equitable Justice: Moving from Understanding to Address Racial Inequity

Al Cohen introduced Dr. Jackson. He comes to Olympia from the University of Kent in Canterbury, England where he served as a student equity, diversity and inclusion officer. He is the Director of Diversity, Equity and Inclusion for ESD 113. He grew up in a military family, as did his wife – they have many coders in both families.

Dr. Jackson attended the meeting where Dr. Thelma Jackson was our speaker. He clarified that they are not related, though have a lot of professional overlap. He started with setting expectations and then walked the club through how he will typically “break the ice” when giving a talk or presentation. The “Code” exercise he shared gave the framework for talking about Reality, Equality, Equity and Social Dignity. Dr. Jackson connected what he was sharing with our club by identifying how it related/can be found in Rotary's 4-way test.
