### Weekly Club Announcements

Folks, here is the latest update for Meals on Wheels. You will note that every day is covered, but many of them have only one on board. It would be fantastic if we could see that second column be filled in.

## AN UPDATE FROM OUR GOOD FRIEND, CARL OGREN

---

To my Rotary and coffee friends,  
I want to give you a short update on what is happening to me. Yesterday, November 2<sup>nd</sup>, my daughter, Danelle, took me to Overlake Hospital for surgery on my left arm. They were repositioning the phystola (spelling?) on my arm to get me ready for dialysis. A phystola is a connection port that will permit a dialysis machine to connect to a large artery and a large vein. The procedure took a little longer than we expected but Danelle had me back at my apartment about 3 pm. We had checked into the hospital at 6:20. I am doing fine. There is only some slight pain and that is from the tight bandage that is surrounding my left bicep. When it comes to pain, I am a little bit of a woos so I am faithfully taking my pain meds every six hours. I have to leave the bandage on my arm until next Monday morning, so I am going without a shower until then. My next appointment is on November 15<sup>th</sup> and my daughter, Christa, will take me to that appointment. Sometime thereafter, I should be ready to start dialysis. Fortunately, my kidneys are functioning at about 10% and have been at that level for a couple of months. At my age of 81, I am too old for a kidney transplant. Kidney doctors get excited whenever the kidneys are functioning at 15% and less. So, I will just have to contend with dialysis for the rest of my life. There are worse things that could happen to me. I am very fortunate to have Danelle available to take me to these appointments.
