This week's program

Keith Menk and Ashley Wendel will present this week's program about Civil War medicine.

Menk and Wendel are two living historians who've been sharing American history with the public for a number of years. They currently specialize in medicine during the American Civil War. They portray a doctor and nurse who are employed by the Union Army to tend to the wounded. Come join us as they share how the war changed medicine, and the developments that led us to where we are now.

Next week's program

Next week Don Nelson will talk about computer tips, tricks, and warnings.
