This week's program

Dr. Rick Staggenborg, MD, will be talking about the advantages and importance of universal healthcare at this week's meeting.

Dr. Staggenborg is a psychiatrist who has spent much of his career providing care to underserved populations, most recently at the VA outpatient clinic in North Bend, Oregon, and prior to that as Medical Director at a community mental health clinic. He specializes in the non-pharmacological treatment of PTSD, using a combination of individual, group and family therapies.
