GUEST SPEAKER: Katheryn Vanderwall, Lake County AG Commissioner

- major regulatory agency for this area because of our AG priority

- Nothing simple. Lots of post-grad licenses needed in this area that deals with so many bio-diverse issues and threats.

- this commission goes back to 1881 as a regulatory board with multiple commissioners.

- 1912 was turned into a single commission.

- CFDA created in 1920. Some of you may remember that happening.

- basically, this commission is to protect public health against pesticides, plants being shipped in, animal threats, insect threats, noxious weeds, petroleum inspections, weights & measures determined, etc.. It's a long day.
