PROGRAM

We were introduced to two members of the Las Lomas High School Robotics Club. This is a relatively new club at Las Lomas having been formed about one year ago. Currently there are 12 members in the club, nine boys and three girls. Nathan McCutcheon, President of the Club, spoke to us and showed slides of their robotic activities in action. We also met Jinsung Huh, who, in addition to his robotic activity, is an accomplished tuba player and is currently raising money to play in a concert at New York's Carnegie Hall.

The goals of the Robotics Club were outlined as follows:

- Develop skills for future participants;
- Promote teamwork and leadership among members;
- Allow opportunities to compete; and
- Have fun.

The Las Lomas team is also going to participate in a VEX National Championship for Robotics which they are looking forward to.

President John King presented the Las Lomas Robotics Club with a check for \$1500.00.
