An October Message from our President

Fall is here, and it feels like the first three months of Rotary have flown by! Pictured above is our most recent social together with some of our youth Interact members. Fun was had by all as we played 'Are You Smarter than a 5th Grader,' enjoyed great food, and even better company.

I have some great news; www.sanleandrorotary.org is up and running! Be sure to check it out for the latest calendar information. Also, if you have not logged into www.dacdb.com, please do so and poke around. At the very least, download the **DacDB iGNITE** app; so far, only 8 out of 39 members have done it. I emailed your login information a few weeks ago, and the initial password is Letmein1234!

So, What Exactly is Interact?

By Jennifer P. Reed on Saturday, September 28, 2024

Did you know that our Rotary district, District 5170, has the largest group of Interactors in the world? Well, we do! In fact, there are more than **4,000** youth Interactors across our district.

So, who are they, and what do they do? Interact is a combination of the words **international** and **action**, thus emphasizing international service, creating overseas relationships, and helping the disadvantaged worldwide. Interact is a service club for teens aged 12-18 that works with and for the community through various events, service projects, and fundraisers. Interact clubs are sponsored by their individual Rotary clubs, which provide support and guidance, but Interact clubs are entirely self-governed through club-elected officers and self-supported by individual fundraisers. The Rotary Club of San Leandro currently supports three local Interact clubs; **San Leandro High School, Arroyo High School, and Kipp King High School.**
