BW Systems: A Fieldtrip

Reedley Rotary took a field trip to BW Systems, formerly Thiele Technology, formerly Salwasser, and formerly a few others too, on Thursday. BW is one of Reedley's larger employers, and it dates back in one form or another to the 40's. They work closely with Reedley College's machining and engineering programs to get talented employees from Reedley College, as well as ensure that the College is teaching the skills that are needed in today's workplace. BW focuses in cartoning, case packing, box forming, and palletizing robotics.
