### Engaging Younger Professionals Inviting emerging leaders to Rotary

New leaders are always emerging. They live in your community. They are eager to contribute. Younger professionals could make great Rotary members, but to bring them into our clubs, we first have to understand them. This is essential for Rotary.

Understanding younger generations means understanding how changes in society affect them. Technology has given them the opportunity to customize nearly everything in their lives. But possessions don't sit at the

top of their wish list.

Rather, many share a unifying trait: a desire for experience. When young people invest time and money into something, it's with organizations that do good in the world.

That's Rotary.
