Week One – Kindness

Love and kindness are floodgates to peace and harmony

When we practice kindness, whether it's toward fellow human beings, animals, plants, environment, or something else, we let go of our negativity. When we show our love or empathy toward someone. When we extend that helping hand. We feel good. And that happy feeling automatically brings peace and

Happy Bucks:

Kelly McBride-Thanked all the people that worked the fireworks booth, especially Diane Rothi, Dave Holler, Chad Zimmerman, Ed Carter and Morgan Carter.

Marc Hurd-Sorry he missed working at the fireworks booth(1st time in 8 years). He was at his home in Washington. He made some chili for his neighbors who are having a special event.

Ola Al Asadi- Just returned from Spain, Portugal and France. While in Spain, she attended a Rotary Demotion Dinner at her hotel and had a great time. The Spanish Club would like to contact us.

Bill Baker-Noted that Wayne Sizel came to today's meeting with Mark Schmidt in his 1914 Model T Ford.

Dan Gray-Had a great time traveling to Alaska and the Yukon with his family.

Jim Reichert- Set off fireworks that caused his crazy neighbor's dog to poop in the house.

Rima Nashashibi- Is getting communities to ban childhood marriage. Santa Clara just passed a resolution to that effect. She also testified in front of the OC Board of Supervisors on that subject.

Curt Condon- Just returned from a vacation in Ireland and Italy.

Paul Vann- Thanked the club for allowing him to serve as president this year.

Speaker: Richard Wade, PhD, MPH, FA/C Civil War Surgery

This was an interesting presentation about the ravages of the Civil War, where 750,000 soldiers (2.5% of the population) gave their lives. The North had 2.1 million troops and suffered a 10% overall loss of life. The South had 800,000 and suffered 25% loss. The total loss of life still surpasses all wars fought since that time. Most soldiers died from infectious diseases such as typhoid, cholera, pneumonia, sepsis from wound infections, or dysentery. The number one cause was poor sanitation, followed by poor nutrition, and poor medical care. Physicians had little surgical experience and soldiers sustaining chest or abdominal wounds often died. Amputations were the most common procedures, and if performed within the 1st 24 hrs, 75% survived. Soldiers often became addicted to opiods- morphine and opium, and 400,000 returned from the war with that addiction. The war did bring positive health care innovations: ambulances, triage, field hospitals and isolation techniques innovated by Clara Barton. The country was deeply divided and men on both sides were willing to die for their beliefs.

Paul & Richard Wade with some of his Civil War Medical Surgical Instruments

Final Quote:

Quote of the Week

"Success is the sum of small efforts repeated day in and day out."

**Special Thanks to the Fireworks Booth Workers
This was our highest sales total ever!!**

**After expenses we made about \$147,000
and the club should receive \$55,000**
