- If you get notification of your check being cashed from the Foundation, email Jay to let him know.

VPHS Principal Dennis McCuiston

- Registration begins on Monday-School starts August 21st-
- Construction is ongoing.

Carolyn Cavecche-Asst Governor-

- Encouraged attendance at the Leadership Forum - we get 3 free tickets.
- The District is asking every club to create a \$250 raffle basket - for Paul Harris credit.

Week One – Listening

Listening vs. Hearing

"When you are listening to somebody, completely, attentively, then you are listening not only to the words, but also to the feeling of what is being conveyed, to the whole of it, not part of it." Jiddu Krishnamurti

Don't think people are smarter than you because they are older than you. People are smarter because they are better listeners.

Happy Bucks!

Robert Frackelton is off to Lake Powell, and he's glad Kelly McBride is running for city council. **Rima Nashishimi** is a great aunt, and happy Senator Durbin is supporting the Child Marriage Prevention Act.

Kevin Padilla is happy to be a member.

Charlie Gallagher complimented Risa Scott, our new Club Service Officer.

Lesslie Giacobbi Also noted Robert Frackelton is running for city council.

Wayne Silzel Is a great-grandfather.

Brian Nielsen-Noted that the new addition to Villa Park High is looking good.

Risa Scott is back from a visit to Wyoming and Montana for her birthday.

Bill Underwood - Visited Cape Cod.

Nils Hoeppe Was happy his wife did not have liver cancer.

Pam Dunn received another check from Phantom Fireworks for \$42,460 bringing the total to \$55,600.

Steve Stern

Even Lab Grown Diamonds Are Forever.

What we learned this morning from Steve Stern's presentation about diamonds, was that lab-grown diamonds are very difficult to discern from the real thing. Whereas, the price for a 1-carat natural stone would be \$4000 to \$10,000. A 1-carat manufactured diamond would cost \$600 and look identical in terms of color and cut. Steve advised you to make sure when you buy a lab-grown diamond you get a certificate to verify it, and check to make sure the marking corresponds to the marking on the diamond. He warns there are some unscrupulous dealers who remove the markings, so buyers beware. According to Steve, about 80% of the diamonds currently sold are lab grown and most are now cut with lasers.

Paul Vann and Steve Stern

Final Quote:

Quote of the Week

"Nothing in this world can take the place of persistence. Talent will not; nothing is more common than unsuccessful men with talent. Genius will not; unrewarded genius is almost a proverb. Education will not; the world is full of educated derelicts. Persistence and determination alone are omnipotent."

— Calvin Coolidge
