PSP Airport Master Plan was updated by **Mark Dwyer, Account Manager with Daley Strategies**, a full-service communications & public affairs firm. Mark is also an LA Five Rotarian. They are working on the PS Airport Master Plan Update with our city council. The city has asked for stakeholder feedback, and thus we are getting this update.

The Airport Master Plan, is a federally required document to plan for the future and identify new projects to support long-term growth.

PSP was built to handle 1.1 million users, but is at 3 million at this point. They want to:
1) Preserve the iconic elements of the airport
2) Create a better passenger experience
3) Accommodate for future growth
4) Comply with the latest airport safety requirements

This plan should deliver the flexibility that we need, such as; US Customs and Border protection, increase baggage

claim, increase gate capacity, increase space in terminals, seats, use outdoor space well and improve the rental car experience.

In 2022, 3 million passengers. In 2042, expecting up to 6.43 million passengers. Visitors: a 4% increase from 2017-2022, while residents have a 5% increase.

Economic impact of tourism: \$9 billion. The study deals with parking demand: public spaces, rental spaces

Planning considerations:

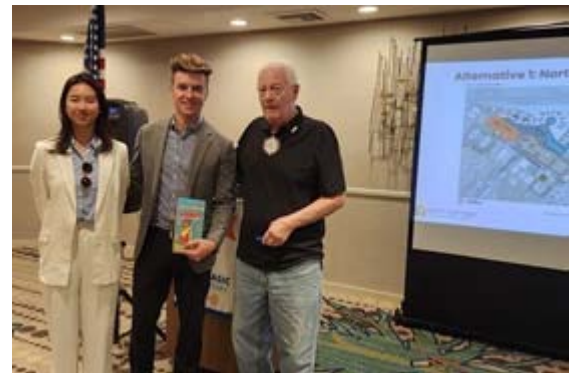

Quaint, charm, ease of use, mountain views, etc
North site rental car center, 5 stories (2.5 above ground) or South site rental care center: buses, across the street from Kirk Douglas (property needs to be purchased).

Phase 1 terminal development including the north parking lot will be reviewed:

Sustainability is at the heart of the plan.
Low water planting.
Solar for electricity support for electric vehicles.

Airplane noise is also an area to look at: Airport Noise and capacity act of 1990, can't impose restrictions on flight schedules, number of flights or noise limits - looking at more quiet Modern Aircraft.

The study also looks at how airports are funded. No local taxes – airport fees will pay for it.
In the end, new airlines, new concessions, new cars for airport operations.
Lots of work to get there!

Flag Swap

Mark Vivian shared the flag that he got from the Rotary of Grand Caymans. NICE MARK!

President Karl is getting a number of flags. We need a member Rotarian to sew the flags on a banner for the club.

Who is the sewer in the club?

RI Foundation Gala

Our club was well represented at the Annual RI International Foundation Dinner.

The dinner was held at March Reserve Air Force Base in Riverside, CA. Next year the dinner will rotate back to our side of the district. You should plan to go!!
