COROTATOR

Notes from the Scribe

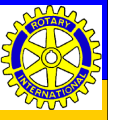

In an inverse universe, we're perfect! **President Bob** was off skiing so president-elect **Pat Starke** pulled himself away from worshipping the KC Chiefs to preside over the meeting. **PE Pat** asked **Ed Dougherty** to offer the invocation. **PE Pat** then asked **Dan Orr** to introduce all the visiting Rotarians and the guests of Rotarians. **PE Pat** recognized all the Red Badgers in attendance and asked them about a city in which they lived that people would never guess!

In case you missed the meeting, you can catch it here on YouTube:

Fines and Recognitions

It's **Rob Taylor's** birthday today! And **Ed Lohlein's** 40th anniversary in Rotary.

Family of Rotary

We lost a good one last week as **Jerry Winter** passed away. Jerry was Rotarian of the year in 2010, active in our Limbs of Freedom, and a huge supporter of all of our Rotarian projects. To say the Rotary Family will miss Jerry is the understatement of the year. Rest in peace Jerry.

Program

Our scheduled speaker had to beg off as he was under the weather (pun intended), so proving once again what a deep bench we have **Paul Laedlein** subbed in! Paul talked to us about climate and weather patterns at the two poles. It was surprisingly interesting as Paul explained the nexus of weather and the melting of the ice caps. He also explained the jet streams and the affect they have on the poles. Thank you, Paul!
