Time for Concern and Caring:

Over the past several days, many of you have reached out to see if there is a way to help Rick and Nanci Kalamaya as they grieve the loss of their daughter, Cari. I know that many members of our club are close friends with the family and have comforted them over the past few days. I did tell Stephanie McKay to keep me posted on ways our members could help as so many of you have reached out this week in care and concern wondering what to do. Stephanie did inform me that if anyone wants to make a donation in memory of Cari, that Rick and Nanci have suggested A Woman's Work.

If you wish to do so, donations may be made online here:

<http://www.awomanswork.org/donate/>

There is a place to note that the donation is in memory of Cari and AWW will ensure that the Kalamaya family is notified of your donation.

If you wish to send a check, please send it to the following address and note Cari's name in the memo line.

Pine Ridge Water Project:

At the meeting, several people offered to donate to the **Pine Ridge Water Project**. We'll have more than the \$1000 we asked for! If you want to donate it's not too late!

LONGMONT, COLORADO.

FROM A SKETCH BY A. E. MATHEWS, IN 1873

The town of Longmont is situated in Boulder County, on the river to the west of the mountains. It is in the midst of one of the most fertile and well-irrigated regions of Colorado, and is abundantly supplied with water for irrigating and manufacturing purposes. In spring the climate is favorable for trade, and is enhanced with a view of commerce (especially heavy one) because of the fact that the river is then full of ice—more rapid with summer—then dark with autumnal tints, and the snow, but always being in grand-est contrast by the presence of the river in the distance. Long's Peak is really distinguished towering high above all.
