What's Happening

Speaker Susan Parrot - "Catch me or Kill me." - A real life Bank Robber Story.

Hello Rotarians, welcome to another weekly opportunity to participate in Rotary Service vicariously through our UA Rotaract's adventures in Panama, and Service Above Self Projects!

"The scientists from Franklin to Morse were clear. thinkers and did not produce erroneous theories. The Scientists of today think deeply instead of clearly. One must be sane to think clearly, but can think deeply and be quite insane."

**Nikola Tesla
1856 - 1934**

Electrical Energy Genius Inventor of alternating electric current and long distance electric power transmission.

This Thursday, invite your friends who want to meet new interesting leaders in Fayetteville and listen to a great presentation about robbing banks that is relevant to our club, our community and Rotary International.

Let's keep demonstrating and putting on social media to our friends and community what being a Rotarian means!

Next Meeting: Sep 14, 2023

Rotarians, please accept my apology. One of the responsibilities of the Club's current president is the addition and deletion of items to our Rotary Calendar. I'm thwarted in making my feeble attempts at being an editor. Let me know if I am successful or not.
