Moderator Past President Sharon Tallach Vogelpohl

Charles R. (Chuck) Buttry, REGIONAL MANAGER, SOUTHEASTERN STATES, Trinity Consultants
Mr. Buttry serves as Regional Manager for Trinity Consultants ♦ Southeast region (Little Rock, Birmingham, Atlanta, and Orlando office locations) and is based in the Little Rock, Arkansas office. He is involved in the preparation of environmental permit applications and compliance audits, and provides strategic environmental compliance advice to industrial clients. His recent project experience has included air quality dispersion modeling for SO₂ attainment designations, environmental due diligence of existing facilities in support of mergers and acquisitions, serving as an expert witness on Clean Air Act issues, implementation of electronic compliance management tools, and preparation of ♦turn-key♦ Title V and major New Source Review permit applications.

His more than 27 years of experience span a wide range of industries including petroleum refining, metal finishing and manufacturing, lumber and wood products, pulp and paper, lime manufacturing, mining and metallic minerals processing, agriculture and vegetable oil processing. He has conducted air quality projects in 15 states in EPA Regions IV, V, VI, VII, VIII and IX. In addition to managing projects, Mr. Buttry serves as the instructor for Trinity ♦s national course entitled *Introduction to Air Quality Regulations*. He has instructed hundreds of industry professionals in custom courses for the U.S. Navy and other manufacturing clients as well as in other Trinity courses such as *Air Permitting in Arkansas*, *Shelby County/Tennessee Air Quality Regulations & Permitting*, and the *Clean Air Act Workshop for Surface Coating/Painting Operations*. Mr. Buttry currently serves on the Board of Directors and is a Past President of the Arkansas Environmental Federation (AEF), and Past Chair of the AEF Air Committee. He holds a Bachelor of Science degree in Chemical Engineering from Missouri

S&T (formerly the University of Missouri-Rolla).

Sharon Hammond-Black, Director, Corporate Human Resources, Windstream

Sharon Hammond-Black is director of corporate human resources for Windstream. She has more than 30 years of experience in human resources, primarily focused on recruiting, retaining and engaging employees. She started her career in human resources at retail giant Phar-Mor, Inc. She held various HR positions for Alltel in Ohio and Pennsylvania before relocating to Little Rock. She joined Windstream in 2016. Her responsibilities include employee engagement, leadership development, and diversity and inclusion among other duties. She has a bachelor of science in marketing from Youngstown State University.

Mariella Hernandez, Master of Public Service Candidate, University of Arkansas, Clinton School of Public Service

Mariella Hernandez, of Guayaquil, Ecuador, is a Master of Public Service candidate at the University of Arkansas Clinton School of Public Service. Mariella is a Donaghey Scholar and graduated cum laude from the University of Arkansas at Little Rock, where she obtained a Bachelor of Arts degree in International Studies. Prior to her graduate studies, she has been working as a certified medical interpreter and advocating for Hispanic patients ♦ rights to access healthcare. During the summer of 2018, she interned in Panama with Give and Surf, where she worked to address the health and nutritional needs of communities in the island of Bastimentos. Mariella is passionate about reducing health inequities by addressing the social determinants of health disparities and hopes to make contributions in this field upon graduation. For her capstone project she collaborated with

One District One Book - Volunteer NOW

Announcing the 2019 One District One Book project with the Little Rock School District. This year's book - The Toothpaste Millionaire by Jean Merrill. This will be our 3rd year participating and sponsoring this project.

Twelve-year-old Rufus Mayflower is a genius at figuring things out. The young African-American boy can draw a map to most anywhere in Cleveland, make a pattern for saddlebags, and calculate to the penny how much money a project will need. He also has a good sense of what things should cost. So when he is annoyed by the prices in the drugstore, Rufus decides to make his own, less expensive toothpaste. Katy, his best friend, is eager to help him, and it's not long before the two pals are in business. As Rufus and Katy develop a recipe, do taste tests, and put their friends to work packing the toothpaste, a wonderful story of success and friendship unfolds. This fun, breezy story set in 1960s Cleveland, Ohio contains many real-life mathematical problems which the charaters must solve to succeed in their budding business.

Assemblies begin at 1:30 p.m. on Friday, April 12.

As our Rotary representative you will be recognized and asked to offer brief comments.

Please email me kfetzer@littlerockrotary.org to sign up - first-come-first-served on school selection - Please provide a 1st, 2nd and 3rd choice of school - I will confirm by return email:

School Address Principal and Rotary Volunteer Assigned

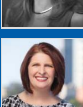

Bale	6501 W. 32nd Street	Roxie Browning - George Keck Rotay Volunteer
Booker	2016 Barber	Dr. Cheryl Carson
Brady	7915 W. Markham	Tyrone Harris
McDermott	1200 Reservoir Rd.	Pam Dial - President Kenny Gibbs Rotary Volunteer
Carver	2100 E. 6th Street	Clifton Woodley
Baseline	3623 Baseline Road	Pamela Freeman

Rotaract Golf Tournament 2019

Rotaract Club of Little Rock is hosting their 8th Annual Golf Classic on May 10, 2019 benefiting P.A.R.K. Every single year, all proceeds of the tournament go directly to P.A.R.K., which is an after school and summer program based here in Little Rock, Arkansas and operates Monday through Friday throughout the entire year. Students enter the program in the 8th grade; P.A.R.K.'s role is a 5-year commitment to the students to help ensure graduation from high school, as well as individual growth. They provide a safe environment for students to complete academic requirements as well as support with homework, tutoring in all courses, recreation activities, leadership development, and involvement in community services. Most students are high risk because they have GPA's of 2.5 or less before they enter

the program. These individuals have high academic potential, despite their current poor performance in school. They are often ineligible for school sports and clubs due to their academic performance. They typically end up on the streets after school and during the summer if they do not enter the program. Most students have no educational vision of attending college, but often will become first generation college students. Almost all of the kids are the first in their family to go to college, which then sets a precedent for their siblings, cousins, etc. They are 20+ years into it now and they have former students with Master's Degrees, PhDs, and coming back to serve the kids who are there now. PARK is 100% donor-funded and needs our help! <http://www.positivekids.org>

Inquiring Minds Want To Know

The membership engagement committee invites you to share accomplishments and significant happenings in members' lives. It has become our tradition to acknowledge these items from the podium at the last meeting of the month. Report your own or report on behalf of another member - just report!
