What a great day - Friday, April 12 for Rotary One District One Book project with the Little Rock School District! As you can tell from the comments below - I think you had as much fun as the students!

I had a great time at Washington Elementary. It's my old stomping grounds from 1st - 3rd grade, and the principal even remembered me! I was happy to get out of there without getting into too much trouble. ♦ Matt Stauffer

Romine was fun. After Amanda, the children's programmer from McMath Library on nearby John Barrow Road and I finished the kids and teachers were floss dancing! I suppose we could have participated . . . Nate Coulter

What an amazing opportunity!! -Jennifer Owens

It was a Great time & I ♦m headed back to McDermott with Rotarctor Ross Burnett in about three weeks to quiz the kids for

Four Bale students presented comments about each of the 4 parts of the 4-way test. It was a great morning with lots of enthusiasm. ♦ George Keck

Rotaract Golf Tournament 2019

Rotaract Club of Little Rock is hosting their 8th Annual Golf Classic on May 10, 2019 benefiting P.A.R.K. Every single year, all proceeds of the tournament go directly to P.A.R.K., which is an after school and summer program based here in Little Rock, Arkansas and operates Monday through Friday throughout the entire year. Students enter the program in the 8th grade; P.A.R.K.'s role is a 5-year commitment to the students to help ensure graduation from high school, as well as individual growth. They provide a safe environment for students to complete academic requirements as well as support with homework, tutoring in all courses, recreation activities, leadership development, and involvement in community services. Most students are high risk because they have GPA's of 2.5 or less before they enter the program. These individuals have high academic potential, despite their current poor performance in school. They are often ineligible for school sports and clubs due to their academic performance. They typically end up on the streets after school and during the summer if they do not enter the program. Most students have no educational vision of attending college, but often will become first generation college students. Almost all of the kids are the first in their family to go to college, which then sets a precedent for their siblings, cousins, etc. They are 20+ years into it now and they have former students with Master's Degrees, PhDs, and coming back to serve the kids who are there now. PARK is 100% donor-funded and needs our help! <http://www.positivekids.org>
